

# Group exercises on seed legislation and accreditation

SEMI's UoN  
Seed Enterprises Management Institute  
University of Nairobi

# Group one

Situation - Kilimo Country has operated an official seed certification system for the last 10 years, where government inspectors undertake all seed certification work. Kilimo country wishes to put in place a system of accreditation of seed certification services. Seed certification work is guided by the Seed Certification Act of the laws of Kilimo.

Task – Identify measures that Kilimo Country needs to put in place to operationalize accreditation of seed certification services.

# Group two

Situation – Mbegu Country has no laws on seed certification and this has made quality assurance on seed certification very difficult, such that seed companies are not willing to invest in the country.

Task – You have been tasked as a Consultant to develop a Draft Seed Certification law for Mbegu. Identify the Sections that need to be included in the Seed Certification law.
