

# Variations in the formation of supraclavicular brachial plexus among Kenyans

Olabu, B.O.; Ogeng'o, J.A.; Awori, K.O.; Saidi, H.

Date: 2008

## **Abstract:**

To describe the pattern and prevalence of variations that occur in the supraclavicular part of the brachial plexus in a Kenyan population The presence of four trunks and an accessory phrenic nerve passing through the subclavian vein are probably described and reported for the first time. However, most of the variations of the BP among Kenyans are similar to those reported in the other populations
