Of the remaining 852,826 acres of commercial timber about half is at present economically inaccessible but it is possible that when a comprehensive timber survey can be undertaken the results will show that further acres could be opened for exploitation if trade conditions warranted it.</p> <p>Owing to the continued economic depression many of the sawmills remained closed or partially so and the sales of timber showed a further large decline over those of the previous year.</p> <p>Continued efforts to explore the possibilities of an export market showed encouraging results. Further experimental shipments of East African Olive were made and a large parcel of Camphor logs were sent Home for more extensive trials.</p> <p>The Cedar pencil slat trade showed considerable activity. Exports trebled during the year and enquiries were numerous.</p> <p>In the bamboo pulp concession—the licensee took up the licence and was engaged for the rest of the year in investigation and experiment at Home preparatory to development locally.</p>

The increased demand for electricity in the township of Nairobi and surrounding district is being met by development of the Maragosa River at the junction with the Tana River. This scheme, upon completion, will be supplemented by the existing hydro-electric stations on the Thika and Ruru Rivers. There is a number of small schemes installed and operated by private landowners for working farm factories, principally on sisal and tea estates.

AGRICULTURAL

(1) ACREAGE AND DEVELOPMENT.—The total area under occupation by Europeans as at the 29th February, 1932, was 5,199,093 acres; of this area 613,557 acres were under cultivation, while it was estimated that 2,201,815 acres were developed under livestock.

(2) OCCUPATION.—The number of occupiers as at 29th February, 1932, is given at 2,107, an increase of 1 over the preceding year. The average area cultivated per occupier is 291 acres and the area developed under livestock 1,045 acres, equivalent to a total of 1,336 acres per occupier. On an average each occupier exported produce to the value of £874 during the year.

(3) CROPS.—The area under maize increased during the year by 40,380 acres. The area under wheat decreased by 25,683 acres. Coffee increased by 2,185 acres and sisal increased by 8,361 acres.

(4) LIVESTOCK.—The number of cattle in the possession of Europeans increased by 4.8 per cent during the year, the number of pigs decreased by 1,470 or 9.7%, while w-olle sheep decreased by 7.5 per cent. The export of wool is given at 7,764 cwt., a decrease of 6.6 per cent as compared with the preceding year.

FORESTAL

The universal trade slump caused a further large drop in the sales of timber and firewood but sales under other heads of minor produce remained steady and the total revenue only dropped 8% as compared with the previous year.

BLACK BASS

During February 1928, 53 Black Bass were imported from England and introduced into Lake Naivasha. These Black Bass have done very well and Lake Naivasha now offers excellent fishing.
