Jamaica. What has happened is that
 the Hayes Hammond Co have taken
 the opportunity to ~~take~~ in connection
 with shipment of ~~manure~~ back
 from the U.S.A., to regularize their
 position as regards the Union and
 Jamaica. There has been serious
 work in Jamaica I think about
 tanning materials for the U.S. (S. I)
 have his and also a list of the tanning
 materials exported from Jamaica?
 [I thought that Jamaica was mainly
 interested in div-div 3.
 I want then before a list to Gov.
 Jamaica for your custom.

W.D. 20/1/13

Mr. Babin

I enclose to Jamaica paper
 which I referred to (18806/13) How
 they will be carefully noted in U.S.
 Reynolds' collection of what are
 bank tickets

The 'articles mentioned' in the 20.
lt. were 'wattle bark & mangrove
bark' - In view of the figures which
I have supplied, I don't see how
Jamaica comes in.

5th lt. Gov. but he is not
in power to give licenses for fresh
tanning materials (the U.S. unless
he is advised by the P. & S. but the
American consuls have given
the limited guarantees: but
Lent^{rs} Haly Hammond & Co. N. York
have given the limited guarantee
in respect of Mangrove Bark & Wattle Bark
and the following firms in respect of
Diro & Co.:

Lent^{rs} J. Littlejohn & Co
Lent^{rs} James G. Pyle & Co
Lent^{rs} Andrew & Townsend
Lent^{rs} Smith & Schiller
Lent^{rs} J. H. Necknagel.

} all of New
York

[There are also 2 San Francisco firms
but I omit these. The 5 firms mentioned
have signed the Straits Settlements
guarantee which qualifies them
to receive from any Govt of the
Empire tanning materials which

do not require further manufacture before they
can be used for tannins. W. Jowett 60. 533
tells me that his composition is published by
Diro & Co. but it will be as well, before the
Gov. is communicated with, if W. Jowett got
his composition by the Imperial Institute.]
