Ar Bower Law

By a file coming to you
at the same time as this you
will see that Lt. Hobson had
arranged to anticipate this attack
on Saipan ~

Detailed knowledge may modify
conclusions but prima facie it
looks as if the capture of
Saipan if it takes place will be due
more to accuracy in sizing up
keeping a comprehension in view of the
situation than might be the case
now (21) that the number of men
and (22) that the number of men
involved required to clean up the
whole job is so small in comparison

to one form engaged elsewhere that
in my likely sight to get me

As far as I can gather the
German wife and even after the
Tangs were too hot expect to
hold out and have ready to immediately

Similarly the natives are
with supporting helping for one month
but now are more on the fence.

It so it makes the lack of
progeny less hypothetic and further
they may make the question
from a man being (by comparison)
into one much bigger.

A.S. 11 4 8

Revised

With reference to her still married
and her son's last name & place
he does not want to find
any information or have an
amount of work necessary to finish
German first edition

6.10

revised

In regard to your note on account of the various
names at the 6.10, in Germany, referred to
me before. General right. For they add very
easily to the maximum, and I think that even
the above could due to an unfriendly special
agreement between the two autochthonous regions
in West Germany that the wife portion is added

I may mention that he does not that any progeny
to be made must be made in the same beginning
and beyond.

P.S. 17.6.1

(File of Telegraphic correspondence)

to Indian War Office and S.O.C.
(below.)

General Wazir Khan 2nd Dec. (48238)

" To be unable to undertake offensive operations
in S. E.A. without reinforcements of
at least 2 brigades of regular foot
troops."

General Wazir Khan 14th Dec. (50226)

" Fresh troops required for offensive
1 Indian Cavalry Regiment
2 Good Infantry Brigades"

General Wazir Khan 28th Dec. (627)

" Prepared to attack Tanga with
1 fresh Brigade, but 2 fresh
Infantry Regiments also required."

General Wazir Khan March (20236)

" Will require 20. reinforcements
1 Brigade for Tanga
2 Battalions for Uti
Fresh brigade for Darawar Saloor"

General Tigne

20 April 1936

"would prefer two brigades of
really good troops for Tanga,
Taveta and Arusha areas;
1½ brigades minimum."

General Walshe's "military
appreciation" (20836.) should
be read in this connection.

Eqm 17/8/15

which 17/8/15

To be quoted now be added:

General Tigne Aug 2-3 35755

1. regard possible plans for the
future months as the most important
area. With one extra brigade the
area could be pushed to Miaro or
Sabitia and possibly to Gondor. With the
induced to attack it. With two extra
brigades I would propose to demonstrate
against Tanga sending a mobile column via
against Tanga sending a mobile column via
Taveta and using every the available
strength to attack Taveta. With three Extra
men to attack Taveta. With three Extra
men to attack Taveta. If the Belgians were co-operating
brigades if the Belgians were co-operating
at Mili, I would propose that one brigade should take
over the remainder operating as before?

General Riga

20 April 1936

"would prefer two brigades of
really good troops for Tanga,
Taveta and Arusha areas;
1½ brigades minimum."

General Wabasharo's military
appreciation (20836.) should
be read in this connection.

Egmu 17/8/15

Wesal 17/8/15

To the above now be added

General Riga and 2-2 35755

1. regard possible plans for the
future. Much is the most important
area. With one extra brigade the
area will be forced to Tabora or
railhead and so possibly the Germans
will be forced to Tabora. The two extra
brigades I would propose, the Tanganjika
brigades, would propose to Tanganjika
against Tanga sending a mobile column via
longish and using every star available
man to attack Taveta. With these extra
men the Belgians were even co-operating
but still if the Belgians were even co-operating
I would propose that one brigade should take
over Tanga, the remainder operating as before.
Does it follow, the remainder operating as before?

~~S E C R E T.~~

From General Tighe to War Office.

August 14th 1915.

10.5.p.m.

26.

The Union Government are about to demobilise six 12 prs. and no 5" howitzers which are not required for Europe. These, complete with personnel and ammunition, would be invaluable here.

I am informed that the Union Government are prepared to recruit for a second Rhodesian Regiment up to 600 strong. To be mobilised and equipped at Potchefstroom at the expense of the Union Government as far as Union stores permit. The purchase of equipment to complete to be defrayed from Imperial Revenues, also pay and rations and cost of forwarding to East Africa. I strongly recommend that this offer should be accepted.

S/P/C

Major General Tighe to War Office.

298
14.VIII.15
(6.40 p.m.)

25.

With reference to my letter of July 31st. No. 322 and the summary
of same which was sent in telegram 325 of August 2nd.

- (A) Reliable information has now been received that 4 guns have already been salvaged from the "Konigsberg" and that others may be shortly.
- (B) It is indicated by recent intelligence that a second storeship (the first was sunk in Mamea Bay) has run the blockade and is in or near Tanga now. The Admiral has been asked to verify this. It is shown by intercepted messages that there is no lack of munitions of war in German East Africa.
- (C) If the above is true the whole situation in German East Africa is radically altered. The Germans have an unlimited recruiting area. The two storeships must have been expected and in anticipation of arms and ammunition being available it is natural that recruits should have been trained. Therefore, the Germans may have at this time 20,000 reliable men under arms and may be greatly superior to ourselves in field and machine guns. For the last three weeks ~~byuni~~ and ~~Saveta~~ area have been so strongly picketed that I have not been able to obtain any information of the enemy's movements there.
- (D) Against such odds if all my good troops were fit I could probably hold my own but owing to the ever increasing sickness of the European now and Indian troops, the reliable Infantry/only total about 4,000 men of whom no more than 3,000 can be concentrated in the Maktan and Msime lines. This concentration is now being carried out. Should the enemy therefore make a determined advance on these two lines a contingency which I regard as quite possible, the situation would be ~~maximum~~ serious.
- (E) Only 2nd line troops can be spared to hold coast. to safe guard Mombasa and keep up morale of the inhabitants I consider the continued presence of a man-of-war is essential.
