report are fully justified. There is too great a tendency to fight out my two essential points but also matters in which the Gov. has been at fault. This may be a revulsion from the lax methods of a few years ago.

Egner - send wife for promotion to an advisory legal post. He would be much missed, but he should not be side tracked in a Land Office.

As regards the late receipt of these reports, the O.S. Land Office, came on leave on August 3<sup>rd</sup>, & the reference must be to the acting man - comparatively junior. There can be no doubt that Mr. Beaton might ought to have seen to the matter for himself.

But it is hardly necessary to refer to the matter.

Without knowing the reasons which suggested that the DPMO should come on leave (they may have been very strong; I see he has 18 yrs service in EA), the cogency of the Gov's argument in par. 4 is not evident.

The Gov. does not report in unqualified terms of approbation on any of the senior officers, till he comes to Mr. Ross & Sinclair.
