Abstract for ...
Write as at ...

11 13/1/11

6600

Sir,

I have the honour to acknowledge the receipt on February 21st of your despatch of December 22nd enclosing a memorandum by Professor W. J. Simpson on the suggestions made by the Municipal Committee of Nairobi in regard to the future development of the town.

8/5/1184

I do not propose to offer any comments on the points raised in the memorandum, because it does not appear that any proposals have been advanced, which have not already been fully considered here, and

the fact that the proposals submitted that the local construction of roads, etc. in the city of Nairobi, should be undertaken by the Government, and not by the Municipal Council.

It is, however, at the same time, a matter of course, that the Government will be glad to consider any proposals for the improvement of the roads, etc. in the city of Nairobi, which may be submitted to the Municipal Council.

As far as the matter is concerned I am sure that you will be glad to consider the proposals.

... must therefore be borne in mind that a long period must elapse before the realization of our ambition.

... any good cause shown to the ... opinion that our view should be accepted.

I can see no probability of any appreciable action being taken which will have the effect of enhancing or extending ... or otherwise increasing the efficiency ... of groups ... to such remedial measures ... at a later date.

... regards particularly ... the Jawaharling Board, by which ... means the Board of Health constituted under the Public Health Ordinance 1913 ... with regard to ... outside the boundaries ... In this connection I would refer you to the memorandum by the Honourable Attorney General ... in my despatch ... of October ...

I have the honour to be

Sir,

Your humble obedient servant
