States that of total establishment of 27 Officers
there are only 10 employed and only 8 at
present available. Requests that all action
possible be taken to obtain Officers for
this service from whatever source.

Mr. Williams Dr. Richardson
Mr. Butler.

Commander Reynolds writes about
this matter to the Log. He suggested
Nigeria as source of supply but I
have discussed with Mr. Harding & I
feel that as we can be spared, the
Nigeria Marine Dept. is itself
under half strength.

One candidate is Mr. Howard - is
going out but I see no prospect of
any other.

? Send copy to Commander
Reynolds said him if he can
make any recommendation, say that
it has been ascertained that no one
is available for Nigeria.

(Received Colonial Office 12.40 a.m. 13th June, 1917.)

318. 12th June.

It is stated that there will be total eclipse moon 4th July would be grateful if I could be informed to what extent it will be visible here as I consider desirable that steps should be taken to prevent it from being regarded with any undue significance by superstitious native tribes and to counteract mischievous propaganda which may be circulated by the enemy. You may consider desirable to warn other Colonial Governments take similar action.
