## The Beauty of the Female Form

A Book of 48 Photographs

By

BERTRAM PARK and YVONNE GREGORY

3s. 6d. net. By Post 3s. 10d.

From the earliest ages the inspiration of the Human Figure has been the foundation of all Art, the highest form of Beauty. The technique of photography has up to recent times so little attracted artists as a medium of expression that the nude figure has rarely been photographed with sufficient artistry to produce a picture.

The portraits of Bertram Park and his talented wife, Yvonne Gregory, are known in all lands where art in any form is

appreciated, and in presenting this little volume of their work in the portrayal of the Beauty of the Female Form we introduce a new insight into the possibilities of photography as an art medium.

Ages before writing was invented ideas. After centuries of reading are conveyed as if were at sec into its own again. These books barest element of textual explanation.

*A Guide to Sexual Harmony for Women.* By **SOFIE LAZARFELD.**

10s. 6d. net. Postage 9d.

Many books are available on the subject of sex, but rarely has the subject been treated from the woman's point of view. In this new work we accompany the woman, from young girl through maturity, on her deciding course in relation to the question, *How does Woman Experience Man?* The contents include: The Development of Marriage. The Mechanism of Human Coitus. The Sexual Atmosphere. Marriage and Sex Life.

---

**READY SHORTLY**

**SEXUAL LIFE IN ANCIENT ROME**

By **O. KIEFER.** With 16 full-page plates, royal 8vo.

About 25s. net. Postage 9d.

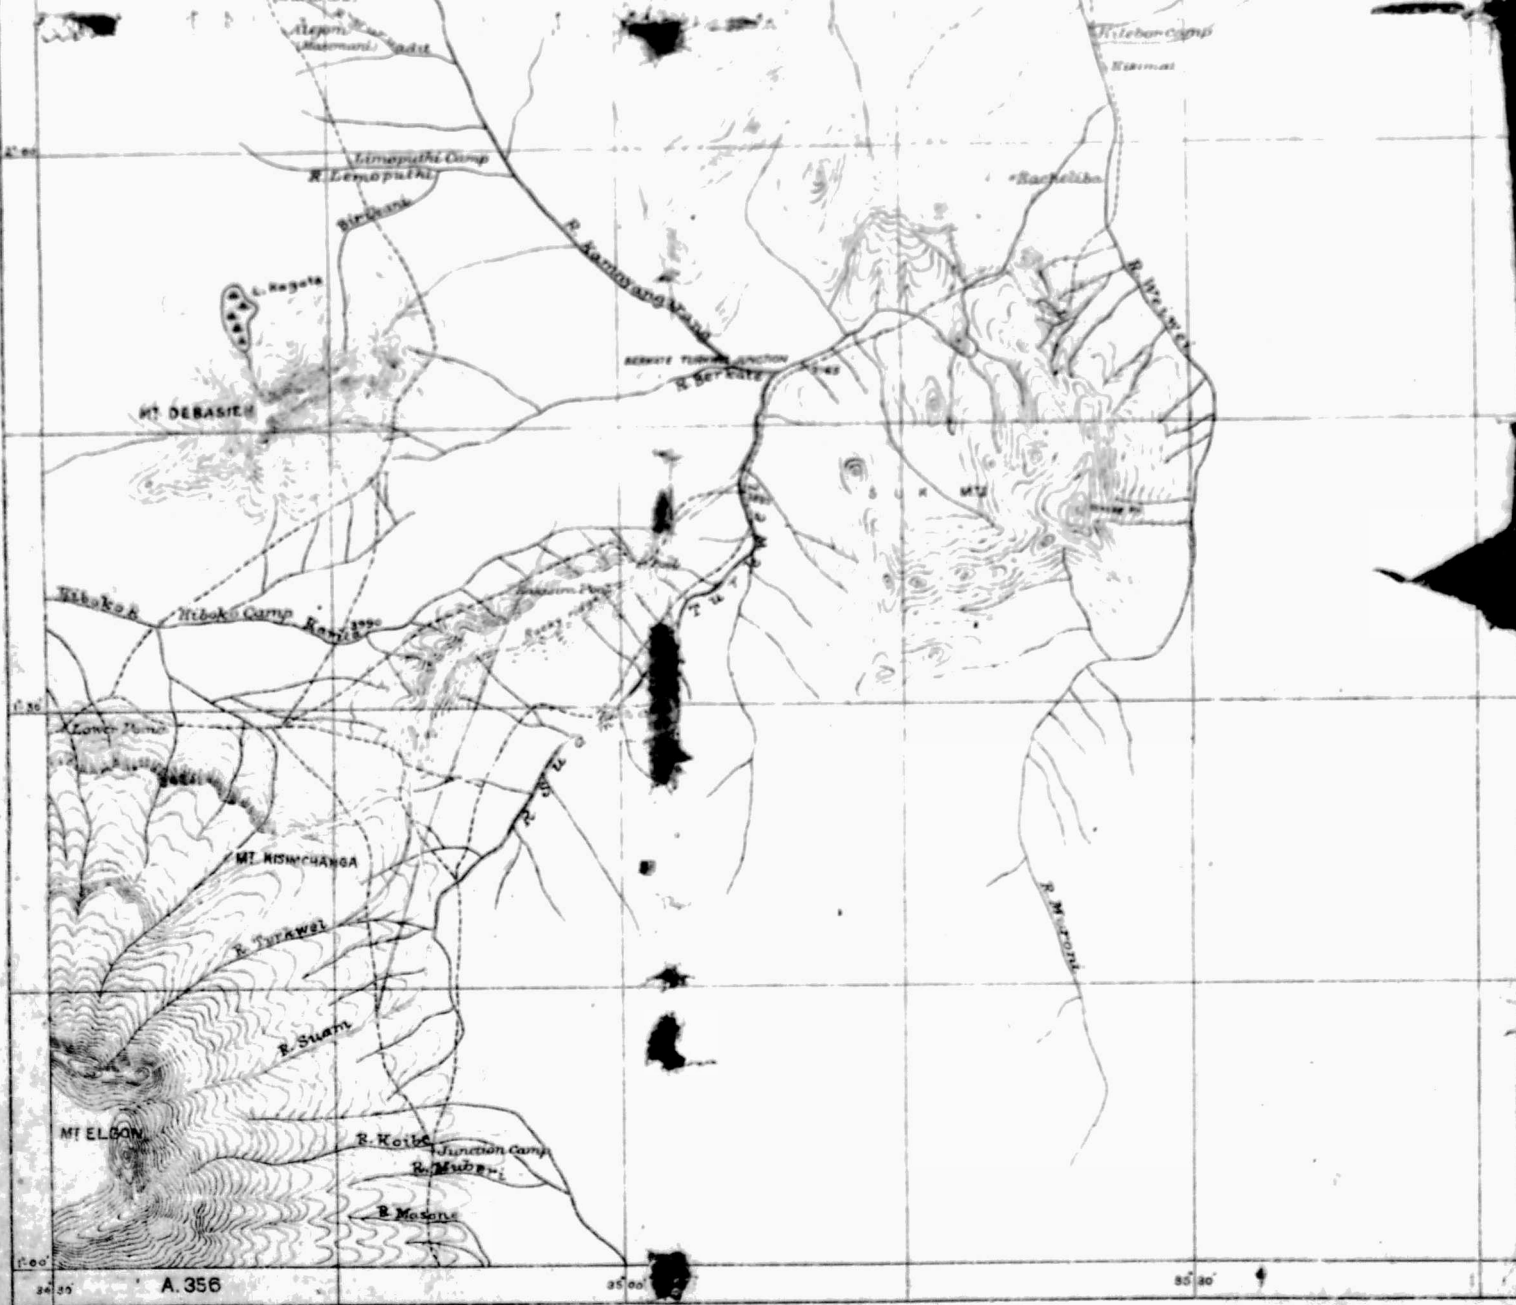

Here is a comprehensive historical survey of the sexual life and ideas of the Romans, the first book of its kind to appear in English. In view of the popular but erroneous belief that ancient Rome was inclined either to fantastic orgies or to the strictest asceticism, a coherent description of Roman sex life is particularly interesting. Attention is paid to that cruelty which seems to be an essential feature of the Roman character, and which, as sadism, is now recognized as having a sexual basis. Dr Kiefer has ransacked the contemporary literature for passages which throw light on his subject, and the book is particularly valuable in its account of the private life and habits of many of the principal Roman personalities.

Enclosures of

hence following Sir Frederick Jackson's proposed line  
the Tazvelli road, but existing from Uganda on a road  
in blue - the site of Racheliba Station.

18. In February, 1947, His Excellency discussed  
the question with Provincial Commissioner, Kasesa. His  
Excellency adopted Sir Frederick Jackson's line along the  
watershed of the Chavortzi Hills as far as River Manyara  
strong, thence continuing south etc. His Excellency's  
proposed boundary is marked in red in map 1.

But above proposal was submitted to the Government but no  
definitively thereto has been received.

19. There were then five different suggestions for  
the boundary (all included in Map AII). No definite decision  
has been arrived at with respect to these five suggestions  
than H. F. Spink proceeded to Racheliba and discussed the  
question with Mr. Crompton. The joint recommendation  
submitted by Messrs. Spink and Crompton is practically  
identical with Sir Frederick Jackson's proposals referred  
in paragraph 16. The recommendations in detail are given  
in enclosure 3 to (118a).

The proposed boundary is not marked on any map, but it  
would appear that it runs in that entering R. Manyara  
near the N. in Manyara. With the exception of a  
small triangle in the neighbourhood of R. Manyara, Sir  
Frederick Jackson's line has been recommended.  
This proposed line places Racheliba in Uganda.

The joint recommendation is the subject of (118) from  
Uganda and has, as yet, received no reply from His  
Excellency.
