My Lord,

Application
Testimonials

I have the honour to transmit, herewith, copy of an application from Mr. Charles Haywood, Chief Engineer of the Magadi Soda Company, for appointment to the new post of Assistant Electrical Engineer appearing under item 8 page 179 of the Estimates of Expenditure for the current year. Attached to the application are copies of several testimonials.

2. I also enclose copy of a report on Mr. Haywood's qualifications by Mr. McBlain, Government Electrical Engineer.

3. The Director of Public Works supports Mr. Haywood's application, and I shall be glad of Your Lordship's authority to offer him the appointment, which is a non-pensionable one.

I have the honour to be,
Your Lordship's
humble, obedient servant,

W. H. Murray
GOVERNOR.

THE RIGHT HONOURABLE

VISCOUNT MILNER, P.C., G.C.B., G.C.M.G., &c., &c.,

SECRETARY OF STATE FOR THE COLONIES,

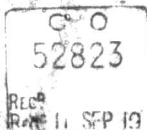

DOWNING STREET,

LONDON, S. W.

U/O The Magadi Sons Co.

Magadi, June 2nd, 1919.

S. Macrae Ross Esq.,
Director of Public Works,
Nairobi.

Dear Sir,

I am informed there is the likelihood of a vacancy occurring in your department for an electrical engineer, and beg to place with you my application for same, along with following particulars of my training, experience, and copies of a few testimonials.

I am an Englishman aged 38 and was educated at the Leeds Technical Institute, and served my apprenticeship partly with Wilson Partners, Electrical Engineers, Leeds, and William Lawson & Sons, Newton-le-willows, Lancs.

I then proceeded to Canada in 1904 and from then worked for the following companies:-

The Canadian Westinghouse Co., on various erection work.

The McKinley Barrage Silver Mining Co, Cobalt as engineer and afterwards master mechanic in charge of all construction work i.e. Power house, mills, etc.

The Mines Power Co., Cobalt, on the construction of the hydro electric station, the installation of sub-stations and large electrically driven air compressors, afterwards chief engineer of Cobalt station, and then asst. supt. for the Co.,

The New Consolidated Gold Mines, South Porcupine, as chief engineer.

The Dome Gold Mines, South Porcupine, as electrical engineer and afterwards mechanical engineer in charge of all construction work-powerhouse, mills, etc., etc.

The Verro

The Cerro de Pasco Copper Mining Co., Morococosa, Peru, as Mechanical and Electrical Engineer in charge of laying out and construction of hydro electric power station, large electrically driven air compressor plant, winding machines, etc., etc.

The Kolar Gold Field Electricity Dept. Gergama, India as Asst. Electrical Engineer.

and my present position at the Nagadi Soda Co. as Chief Engineer.

Should this not be detailed sufficiently I will be pleased to do so, and trust that my application will be considered favourably.

I am etc.,

W/- Chas. Haywood

TO WHOM IT MAY CONCERN

Mr. Chas. Hayward who now leaves on account of the closing of our mines has been engaged as master mechanic in charge of boilers, compressors, hoists, pumps, etc., and all electrical machinery around the mine.

His services has shown both his theoretical and practical worth, he is industrious and faithful so our relations have been one of confidence.

It is a pleasure for me to recommend Mr. Hayward for ability and uprightness.

Chas. Haywood Esq.,

Dome Mines Co.

South Porcupine, Ont.

Dear Sir,

I just read a letter from our friend Mr. Dretherton who informs me that you are still with the Dome and I think acting in the capacity of Assistant Mechanical Engineer. This is a good start and I wish to state that for every step upwards you have my sincere wishes and I now think you have a chance to show your ability in which you were very much hampered at the time.

Sincerely etc.,

Sd/- O. Bergstrom.

THE MOROCCHA MINING CO.

MINING OFFICE,

MOROCCHA, F.M.S.

21

5th April, 1910.

My dear Mr. Loring.

This letter will serve to introduce to you Mr. Charles Haywood who has been in our employ here as mech. & Elect. engineer, he was also with me at the time in Porcupine.

Mr. Haywood is a first class mechanical and electrical man and is specially conversant with mine work. He has left our employ because of his inability to stand the high altitude, and, after a visit to his relations in England will probably seek employment in the line - have mentioned above.

If you can utilise his services, you can rely upon having obtained a first class man.

With kind personal regards, I remain

Yours etc.,

sd/- Harold Kingsmill

(No personal liability)

Mine Offices,

Sault Ste Marie, Ontario.

March 10th, 1911.

TO WHOM IT MAY CONCERN

It affords me great pleasure to recommend Mr. Chas. Hayward, to anyone in need of a really first class electrical and mechanical engineer.

He has been employed here on the construction of the whole plant as electrical engineer and recently as Mechanical Engineer to the Co.

However I am now returning to his old position as Asst. Supt. of the Mine Power Co. Local, and wish him the best of luck.

Yours etc.,

W. H. Cook

Superintendent.

Hills Buildings,

Broad Street, New York City.

Dear Kingsmill,

Mr. Chas. Haywood has just been in to ask me for a reference. He telephoned to me yesterday but I did not get his message, so that he was unable to enclose my reference with others which he is sending to you.

I have known Mr. Haywood for several years up in this country and he has always given satisfaction in his work, he is a good mechanical and electrical man. He worked for me in Cobalt and left to better himself in another position.

He is a graduate of the Mechanics Institute of Leeds. Sorry not to have seen you before you left and hope you will have good luck.

Yours etc.,

sd/- P. A. Robbins.

THE MYSORE GOLD MINING CO. LTD.

Marikuppam,

Mysore State,

S. India.

Dear Sirs,

It gives me pleasure to state that I have known Mr. Chas. Haywood since he joined the electricity department of the Kolar Gold Fields some two years ago.

As most of his time was employed on the above mine I know his capabilities to be that of a thorough electrical engineer in all its branches.

He is a steady hardworking man to be relied upon in every way and without hesitation I recommend him to any firm requiring his services.

Sd/- W. J. Trybail

Chief Engineer.

Head Office,

Nairobi, June 10th, 19.

The Hon. Director of Public Works,

Nairobi.

Ref: Proposed appointment of an Asst. Electrical Engineer. (Attached application for an appointment by Mr. Chas. Haywood.)

I have examined Mr. Haywood's application and the copies of the credentials submitted. I have also had three interviews with Mr. Haywood on the subject of his training and experience.

2. This is of a sound, wide and practical nature and embraces the construction and maintenance on both the electrical and mechanical sides, of generating works for alternating and continuous current supply, by hydraulic, steam and internal combustion engine power.

3. This experience has also extended to many varied applications of electric power in particularly exacting industrial operations, also embracing the mechanical and electrical branches.

4. Mr. Haywood's experience has been gained very largely abroad, which makes it particularly valuable in a developing country, such as this.

5. He is of good address, and apart from his credentials, which are excellent, I judge him to be fully capable of discharging the duties which will attach to the above named appointment, and recommend him accordingly.

6. Mr. Haywood informs that if his application is successful, it is his intention to get married.

sd/- J. Kestian

Government Electrical Engineer.
