Do you see any reason why  
the writers should not be  
told what they wish to  
know? If so, it wd  
probably be safer not to  
go by our old records,  
but to use our 2' bar  
especially that this may  
be done

I do not know what is the practice in this  
country? first ask Public Trustee

I am sure saying that it is not desirable that the  
information should be given before the Peace  
Security comes into force but that when it comes  
into force there is no objection to the information  
being given direct to the engineers  
copy direct to HQ etc
