Gen. Johnson

Reports (a) not likely to be fit for certain
employment - E. Africa & (b) in England he
would be fit for sedentary employment only
for many months.

W. Robinson,

We must then fix a date for the
termination of Gen. Robinson's
Commission, and subsequent to
that he will receive retired pay.
The most suitable date seems to
be that on which he will be
medically examined by M/P, as the
assessment of his disability for
retired pay will have effect from that
date.
