Mr. Grindle

You will see that, in the first instance, we telegraphed to the Gov. "presuming that he would agree" to a suggestion by the W.O. and the Treas. that members of the Local Forces should be given free

passages to England on discharge (but not a return passage) provided that their service exceeded one year. Since then the alternative proposal has been put to the M.C. and the I.M.S. that these people should have a free passage to England and back to E.A., provided they have put in a minimum qualifying tour of 20 or 24 months but not otherwise, except in cases of invaliding.

We have now obtained approval for this modification, and it represents all that we can do if we are not to have demands for similar treatment (i.e. single passage after 18 months) from the countless officers who have left the F.A.P.

You will see from the telegram as Mr. [unclear] goes that it is decidedly unfortunate that our first telegram has, as appears from 18830, been treated as a ~~saftey~~ ruling. It has been allowed to become known and expectations have been raised.

You will see from the minutes on 11275 /Nyasaland that in that case it is proposed to deal specially with applications for passages home where hardship exists, e.g. where people officially employed have lost, through their military service, the right to a passage home at the expense of their employers. In this general case ~~we~~ we should <sup>be</sup> ~~be~~ given to give special treatment in hard cases if any are brought to our notice as a result of the telegram now to be sent.
