

be willing to repatriate the wives (at the husband's cost)
which will relieve our priority lists, but will
strengthen the demand that these wives should
be repatriated free as in imperial cases. I
presume that local A.K.A.P. officers, who are
also civil const. officials, should be brought
under this scheme & so relieve the C.A.
burden. In this case there will be the
additional complication that they will be
entitled to the difference between pre-war &
present cost of their wives passages &c.
I don't think it will be too much to hope that W.O.
will take on the wives, who are in this country
while their husbands after retirement from
local forces, are in E. Africa, but this point
needs consideration.
