Requests cable be sent to Gov. CAP regarding
if in favour of — is prepared
to grant facilities.

This is a list of his Army's interest in
the (C) or (D) project. I had told her that if the
(C) could be done in with the scheme in mind
later, the (D) or (E) any way, they could
be done.

The figure of one is his estimate of
allowance for all possible future expenses
is not a hard & fast estimate.

I have accepted.

(I have not come of this scheme in mind)

Sir,

I am desired by the Committee of this Fund to request you to be kind enough to cable to the Government of British East Africa with regard to the scheme of Miss Norman (who proposes to start a centre for disabled officers and men and their families on the Government Farm at Kabete) and ascertain whether that Government is in favour of the scheme and is prepared to grant special facilities to ensure its success.

Yours faithfully,

Lt. Colonel,
Organizing Secretary.
