Reemployment

Request.

Mr. Robinson

Mr. Robinson's ordinary employment
in E.A. was mainly (see 57578/19), as Mr. Branch
said on 20 Jan (4936) that he would not be
fit for that for a long time, period uncertain.
We told him on 2273 that there was no prospect of
our offering him a court app in tropical Africa.
Further it will be seen from my minute on 4980 that
Mr. Branch advised him not to return to a
malaria country at all. He is therefore ruled
out as far as the Colonial Office is concerned.
On this point, I think we should say that
the S.I.S. understands that his application is before
the Ministry of Health & the W.O. as regards that
he is unable to assist him in the matter of

employment in this country

We have not yet terminated his
commission in the E.A. Moral Forces, and in view of
the terms of Mr. Sewell's minute on 5/17/19, I suppose
we shall not do so for some time. We extended his leave
for 2 months in the first instance, but I cannot find out
when that period ends. In the circumstances I think
that his leave should be extended indefinitely for the
present. Tell him so as an addition to the
proposed answer above, and say that he will no
doubt desire utmost to secure employment at
an early date.

inform C.A. as to extension of leave

17/2/19

Please see now 9710

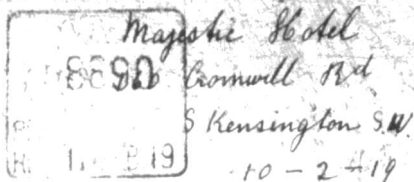

add to the first part of the
answer proposed above that the S.A. has no
objection to his offering his services as proposed

17/2/19

He says he wishes to offer his services
through C.O. as soon as possible

so as not to have

18/2/19

the Under Secretary of State.

Colonial Office.

Downing St.

Dear Sir.

With reference to my transfer to 'Ministry of Labour' with a view of finding me employment, I find the matter, as far as I am concerned, which is attending is rather a waste of time. I have gone through all these subjects thoroughly.

What I really require is immediate employment, which I think will do far more to bring me back to my old state of good health than loafing about London as I am doing at the

present time. There should surely be
 billets going on the Pre-construction
 scheme, or billets in France of some
 kind, which I am capable of performing
 here, especially as I know the language
 I am quite prepared to take up work
 in any country, I can do Office work
 and control Labour in large numbers.
 I have a special knowledge of transport
 work. My one and only trouble is
 that I am unable to go back to my
 work in which I was engaged
 before the War, as it was really
 my work, but anything of a
 different nature I am confident I can
 perform, and give satisfaction.

I am, Sir,

Yours obediently

Edw. Anstruther.
