for medical

It should rather call the morning. The Dr.
of the hospital has let her "come up & shade" sufficiently
see us. They will not board him at the hospital & they
have no instructions from us, but the Dr. told us
that he considered he would benefit by being some
light work (It is being offered a job with the G.P.)

In order to save unnecessary travelling
ask Dr. Hospital, Bournemouth for the
medical history papers, saying that we propose having
him examined by the H.A. to the Dept.

add to letter proposed writing to Dr. A.
that we are asking for his medical papers with a view
to his being boarded by the H.A. & that a further
letter will be sent him as soon as we get possible

copy of Dr. A's letter of 4th May to G.A.;
copy of letter to G.A. + work for particulars of services
for purpose of assessing gratuity (Dr. A. will
probably not go back to H.A. & he has a low rate of
allowance which is costing a good deal so that he wants
the gratuity as soon after death as possible.)

Sir

Will you please inform me if I am entitled to the new rate of pay dating from 7 February payable on 1st May of 4/6 per diem bonus.

If you have heard yet in regard to my claim for lost hit in East Africa, and if not, will you advise the Crown Office to advance me the sum of £25 on my War Gratuity. I am in urgent need of some funds to settle some Private affairs.

I am trying to get back to London next week to try and see the Ministry of Pensions to push my application forward, I feel quite fit enough to take on indoor work, and feel certain I can make a quicker recovery

than remaining idle with the chance of being
unable to obtaining employment, which is getting
on my mind and affecting my nerves.

I am, Sir,

Yours obediently
