The
Colonial Secretary

Dear Sir.

My husband
Joseph Pyerman, has been
in Mombasa, British East
Africa since June last, as
manager for the East African
Industries Ltd. He was
engaged to take out his
wife and family as we are

his legs below the knees. He was very ill for three months but got quite well except that he could not walk. He has been gradually improving ever since, and in October I sent him to the Childrens Hospital Newcastle. He has been treated, and has improved so much, that he has been fitted with boots & supports and is now learning to walk. The Doctors and Nurses at the hospital tell me he will not require the supports long

but will soon be alright. He is strong and healthy in every other way. He is big for his age, and is very intelligent. His legs are not not deformed only weak. I cannot bear to leave my boy behind, and would like to know if I can get Special permission to pass the Immigration Officers at Mombasa. I should be much obliged if you will let me know what you can do in the matter, as I sail a month today.

Yours Faithfully
Catherine Tyerman

expected to help in the
missionary work.

I was not well enough
to go out with him, but
I now propose going on
the 19th of February.

My husband tells me
there is a doubt about
one of my children being
allowed to land.
He is a boy two years
old and he has been unable
to walk for two years.
