Mr Brookway refer presumably
to para 10 (a) of the Agreement
in his brought's file (attached) -

5919 No 11 -

As he is entitled to a free passage
I imagine that he would not be
called upon to refund the cost
of passage determined by
engagement, and that such alteration

as is necessary should be made
to this agreement -

subsequent Paper.

Heath. 8.7.19

I have no objection to his travelling out under the
separation scheme.

All C.A.C. engagements are subject to his being
physically fit, say that he will receive a repat. passage
& that the necessary alterations as regards passage
shall be made in the agreement, ^{if that will be a help from the other side} inasmuch that we
have so instructed C.A. & that if he is found fit he
should apply for a repat. passage & inform us when he has
done so, as it may be able to assist

Sir

142

I am in receipt
yours of 26th ult. and
would like my name to
be considered for the
appointment mentioned
therein

There is however one
point which I should like
made clear Under agree-
ments usually made in

arranged, would it be possible for me to be appointed locally after my arrival in Nairobi

Yours truly
W. H. Brockway
Capt

and for appointments of this nature, a passage is provided to the colony during the appointment under certain conditions. Understanding the fact that I am entitled to 20 months of service, I am entitled to a passage to B.E. 2 both for myself + wife under the Repatriation scheme. Would I be enabled to travel out under the 143 scheme thus placing myself under no obligation, is usual, to the colonial service? If this cannot be

proposed to be under the
rehabilitation scheme & the necessary
alterations in the agreement should be
made accordingly. He will
commence to draw the half
salary of his appointment from his
actual date of reinstatement.
