O.A.G. 192566

The Committee expressed their opinion that it
is not essential that the work should
be finished till the end of 1925, or
1926 Summer. Personally I am
gratified by the Committee and believe the
best to be done both as a port
(very valuable in view of the short
delay which has already occurred)
has considered our position & balance,
I suggest that we should ask CA to
bring the Committee over to discuss.

A copy has been sent to Kenya. I am not clear as to the
advantages to be expected from a revision, but it may help.
And copy of 192566 to CA & suggest. CA 29/4/25
