The different dependencies, in advocating  
a continuance of the present concessions,  
did so on the grounds that the  
sailings of steamships of the Conference  
lines were still irregular.

On CA 5784 we agreed to the C.A.  
discussing the question of the regularity  
of the steamship service with the B.I.  
& O.C. Companies. We should  
perhaps see what comes of these  
negotiations before we definitely

I don't know whether the C.A.'s negotiations, if they result in anything in regards regularity of service from here can be expected to result also in regularity of service from E.A., which is rather a different matter.

Possibly Nyasaland can now claim a regular service; as regards the other places I wd. tell them that the existing rule will remain in force, ~~but~~ for 1925, but they should report ~~any~~ ~~service~~ ~~needs~~ the end of the year whether the homebound service is becoming regular or not.

How would you like a SSC to take regular in one direction & not in the other?

Mr Vany of Nyasaland told me the other day that sailings by Inter-mediate from Beira are very irregular and postponements are frequent.

For. So long as it is understood that we are only considering a ~~service~~ to the old rule as explained in my minute on 21333/24, I do not mind how long the 20 day arrangement continues. It is a very simple and set - in comparison being favourable to the Office.
