MINUTES

We have already approved in principle that
the control of ports and harbours should
come under the Transport Administration,
in being "you" referred to Kenya -

to see what they want to do, and I
and again express my regret that
Kenya should attempt to deal with
matters of this importance in a brief
letter.

No. 117 14th April. I am anxious for approval of
principle that port and harbour control shall be placed
definitely under administration of Uganda Railway.
Felling states that it is very desirable to begin the
consideration of the difficult problem of handling
charges and port dues also appointment of experienced
port manager not later than January next year.

I fully agree and request authority to proceed
on above lines. With reference to the appointment of
the Port Manager I strongly recommend that applications
for the post should be invited locally in the first
instance and the names of any suitable candidates be
submitted to you for discussion with Felling if he
goes to England.
