MINUTES.

MINUTES NOT TO BE WRITTEN
ON THIS SIDE.

ADVISORY COMMITTEE ON NATIVE EDUCATION

IN TROPICAL AFRICA.

Minutes of the 12th Meeting, held on
Tuesday, March 10th, 1925, at the
Colonial Office.

PRESENT:

Mr. Ormsby-Gore. (Chairman).

Bishop of Liverpool.

Major Church.

Sir James Currie.

Sir Frederick Lugard.

Mr. Oldham.

Sir Michael Sadler.

Mr. Strachey.

Mr. Vischer. (Secretary).

Mr. Ellis.

Mr. Gool.

Mr. G.W. Goodchild. (External Registrar,
University of London).

1. The Minutes of the 11th Meeting were approved subject to certain amendments.

2. The Chairman thanked Mr. Goodchild for his courtesy in attending the Meeting. He had been invited to attend in order to explain to the Committee the conditions under which the University of London was prepared to give facilities for the external degree. The question had been raised at the previous Meeting, when proposals received from the Governor of the Gold Coast regarding Achimota College were under discussion.

3. The Secretary then brought the following to the notice of the Committee:- (a) a message had come from the Government Hospitality Fund saying that my Lords of the Treasury had sanctioned the necessary expenditure for a dinner to be given by the Secretary of State in honour of Dr. Jesse Jones, the Chairman of the Phelps-Stokes Commission to Africa, on the 26th March. (b) He had received a letter from the Director of Education of the Northern Provinces, Nigeria, referring to the Memorandum on Uganda Education, and (c) a letter from Mr. Oldham proposing that the question of the use of the vernacular in Native Education in Africa and the establishment in London of an International Bureau for the study of African languages and literature should be placed on the Agenda for the next Meeting.

1.

4. The Chairman then asked the Committee to consider the draft despatch dealing with the proposals received from the Governor of the Gold Coast regarding Achimota College. He read the paragraph in Mr. Fraser's proposal enclosed in the Governor of the Gold Coast's despatch of December 4th, where the Principal of Achimota advocates the London degree. It was suggested that in the draft reply the paragraph referring to this matter should be expanded, and the despatch issued as soon as possible.

5. Invited by the Chairman to do so, Mr. Goodchild then explained the provisions made by the University of London for granting the External Degree and the conditions under which arrangements were made for examinations, etc.

"There are normally three Examinations leading up to the degree."

The first is the Matriculation Examination, which is common to all faculties. The standard of this may be defined as equivalent to the standard of a 'Pass with Credit' in one of the School examinations recognized by the Board of Education, e.g., the Oxford School Certificate (formerly the Oxford Senior Local), the Cambridge School Certificate (formerly the Cambridge Senior Local) etc. These School examinations are designed for pupils of 16 plus who have been following a normal course in a Secondary School of the type and standard approved by the Board of Education and to be found on their Grant List.

In the Regulations the following special languages have been approved by the Senate as optional languages for overseas candidates - Afrikaans, Arabic, Armenian, Bengali, Burmese, Canarese, Chinese, Danish, Dutch, Greek (Modern), Hebrew, Husa, Hebrew (Classical and Modern), Hindi, Hindustani (Urdu), Irish, Japanese, Malayalam, Marathi, Norwegian, Pali, Panjabi (Gurmukhi and Perso-Arabic), Persian, Welsh, Portuguese, Roumanian, Sanskrit, Scottish, Gaelic, Serbian, Siamese, Sinhalese, Swahili, Swedish, Tamil, Telugu, Urdu, Yiddish.

The second examination is the Intermediate Examination. In the more usual faculties, e.g., Arts and Science, this examination can be covered with relative ease by an average candidate in a Secondary School one year after passing the Matriculation Examination. It is an easier examination than the Higher School Examination, which normally requires two years' work from a pupil of the same type.

It must be understood that this definition of standard applies only to the Intermediate Examination in the more usual faculties, e.g., Arts and Science, and does not apply to the more specialised forms of Intermediate in the less usual faculties, e.g., Laws, Medicine, Engineering, etc.

The standard of the Pass Final Examination is more difficult to define. The course can normally be covered by an average student in a College where teaching of a university type is given, in two years after passing the Intermediate Examination. This Examination is naturally not taken in Schools. The Honours Examinations are again of a widely different type, and, moreover, the difference in standard between the lowest third class Honours and the highest first class honours is very great.

Examinations in the Colonies. These are granted on the application of any Colony or Dominion through the appropriate channel at home, i.e., the Agent General, or through the Colonial Office. Under no circumstances is any Examination held except upon the application of the Government of the territory concerned. Normally, any Examination conducted entirely by printed papers can be held in a Dominion. Furthermore, an Examination involving a simple *viva voce* test can also be held in a Dominion provided that the authorities on the spot can secure the services of a suitably qualified person to act as Assistant Examiner in the subject concerned. This would apply to such Examinations as the oral test in the more usual modern languages at an Intermediate Arts Examination, or a B.A. Pass Final.

Practical Examinations in Science have been sanctioned in a number of cases in the Dominions. The essential conditions are the existence on the spot of suitably equipped laboratories, and the availability of a sufficiently qualified scientific man. For example, in Mauritius, practical examinations have been sanctioned in Physics and Chemistry to be held in the laboratories of either the Agricultural College or the Royal College. A report on the laboratory accommodation from an independent person is always called for by the University before sanctioning the holding of any practical examination overseas.

It is not usual to send out an Inspector from England for this purpose, as hitherto it has generally been found possible to obtain an adequate report from someone on the spot, or occasionally from some qualified member of the University who is visiting the district.

Special Syllabuses. Special Syllabuses have been approved in a few cases for Colonial Examinations, e.g., in Botany where the local flora differs widely, special syllabuses have been approved for Ceylon, Jamaica, etc.

Special languages are allowed to be taken by Oriental candidates in the Intermediate and Final Arts Examinations. Thus Ceylon is allowed to substitute an approved syllabus in Tamil or Sinhalese for the syllabuses in French or German, correspondingly, Examinations in Sanskrit or Pali for Latin or Greek; similarly in Palestine, candidates may offer Classical Hebrew in place of Latin or Greek".

In the course of the discussion which followed, Mr. Goughchild explained that it had not as yet been the practice of the University to send out Examiners, but he thought this could be done provided that the necessary money for expenses was forthcoming. Usually someone in the Colony, normally not a member of the Education Staff, who had the necessary qualifications was appointed by the London University to conduct the examination. On the Scientific side the Departments of Agriculture and Health could supply such men. For practical examinations, it was necessary for the University to have evidence that the laboratories available were properly fitted out. Sir James Currie pointed out that in the Sudan it was the practice to appoint people of special standing to inspect and report upon the schools at regular intervals. Mr. Goughchild stated that the actual fees for holding examinations were small, but that travelling expenses and remuneration for loss of time, etc., would probably be asked for if the university was to send out their own examiners or inspectors. Major Church, Sir James Currie and the Bishop of Liverpool spoke in the interest of making a foreign degree

the aim of the Native School and education system being evolved by Mr. Fraser at Achimota, the primary object of which, they understood, was the establishment of a Native University College. Sir Frederick Lugard asked Mr. Goodchild whether the papers set by the examiners were, or could be, adapted to the local conditions, and based on the text books in local use. The Committee had laid great emphasis on this point. If the examination papers sent out were of the same type as hitherto (dealing for instance with the Wars of the Roses instead of with Colonial evolution and African history) the old system would be perpetuated. Mr. Goodchild said this would be a new departure and would require consideration. The Committee expressed it's view of the great importance of the matter. Mr. Goodchild thought that the details of the different examinations could, in many cases, be adapted to local conditions. The Chairman then pointed out that the question of a degree could wait, but that it was essential from the outset to have a clear view of what type of examination should form the basis for the education to be provided for at Achimota. Sir James Currie considered it wrong that the whole system should be tied up to one standard of examination. He would rather have the views and ideas on native education as expressed by Sir Michael Sadler and the Bishop of Liverpool to be set up as a standard. Major Church felt apprehensive of dragging the African along our own lines, which we ourselves were ready to acknowledge were by no means perfect. Sir Michael Sadler explained the idea which underlies the system of external degrees and referring to Oxford he read the following extracts from the Statutes of the University of Oxford (1924).

(Page 647 - Miscellaneous. University College of Southampton. (Decree in similar terms with that for the University College of Exeter.)

"That, subject to the grant to the University College of Southampton of a Charter of Incorporation giving to the College the right of conferring certain degrees, and establishing a Board of Visitors as part of the Constitution of the College, the consent of the University be given to the appointment by the Hebdomadal Council of a Board of Visitors for the said College, with the following constitution and powers, viz.-

The Board of Visitors shall consist of Five Members, who shall be appointed by the Hebdomadal Council of the University of Oxford.

The Board of Visitors shall have the following powers:-

(1) To receive a report on the qualifications of selected candidates for appointment to Professorships and other Headships of Departments of the College, and to eliminate from the selected list any candidate whose academic qualifications are, in their opinion, insufficient.

(2) To approve, or if necessary, to refer back, the regulations governing (a) the period of study qualifying for a degree. (b) the standard of admission to qualifying courses, and (c) the number and combinations of courses qualifying for a degree.

(3) To appoint the external examiners who shall act with the examiners appointed by the Council in the conduct of all-degree examinations of the College, and to receive a report from the external examiners as to the conduct of the degree examinations and, if necessary to make representations thereon to the Council of the College.

(4) To approve, and if necessary to refer back, the standing orders of the Court for the conduct of degree examinations.

(5) To approve or to disallow the conditions of affiliation of other institutions to the College, and the conditions under which a period of study in those other institutions may be recognized by the College as qualifying for admission to degrees and, if necessary, to inspect, or to appoint persons to inspect, particularly departments in such institutions as seek recognition for this purpose.

(6) To appoint five members of the Council of the College. Members of the Board of Visitors shall hold office for five years.

All expenses incurred by the Board of Visitors to be defrayed by the University College of Southampton.

Sir Oldham remarked that Mr. Fraser's ideas as expressed in his educational work in Ceylon were opposed to any tendency for westernization, but as Sir Frederick Luard and other members had said, it was necessary for the present to popularize Achimota, and to provide facilities for men from the Gold Coast who wished to take a degree in the country of an equally high standing as that which they can obtain by going to London or to any other English university. Sir Michael Sadler urged that while we must aim at a new African standard, we must beware of making the Achimota degree "Sham African"; and it was then explained that until the system worked out at Achimota by Mr. Fraser had been developed up to the point when the question of the local degree would become actual, there was a very urgent need both for supplying a standard that was clearly recognized as the best available, and as satisfying the demand on the part of the native for supplying facilities in the Colony to obtain a degree which would put them on the same footing as those of their countrymen who had taken their degrees in England. As the Chairman said, it was necessary for the moment to provide a link and as such the University of London might be suitable.

Sir James Currie mentioned that the medical degree given at Cairo gave Natives of the Sudan and Egypt the same standing and opportunities for work as any external degree, and Sir Michael Sadler drew attention to the great difficulties experienced in India and the danger of doing anything which might lead natives in the direction of living a double life, that is, an English life and an African life. Sir Frederick Luard suggested that it was premature to discuss in detail the question of the degree examination, and examiners. It was stated that it would be at least ten years before a

degree standard was reached; by that time there would probably be great changes in the Gold Coast. The immediate question was the standard to be adopted in the Matriculation and Intermediate exams leading up to the Degree. He suggested that Mr. Goodchild should inform the Committee whether Mr. Fraser's assumptions in regard to what the London University would do were entirely correct. Mr. Oldham informed the Committee that Mr. Fraser would probably be in England this summer and the Committee agreed that an opportunity should be arranged for the Committee to discuss the whole question with Mr. Fraser. Finally it was decided to substitute for the first seven lines on page 3 of the draft despatch the following paragraph which had been drawn up by Sir Frederick Lugard. He had endeavoured to embody in it Sir Michael Sadler's remarks given in paragraph 2 of the Minutes of the previous Meeting:-

"The Committee concur that for the present the London intermediate and matriculation examination standards should be adopted. The question of conferring degrees need not at present be considered in further detail, but the Committee is unanimous in its view that the attitude of western Education (which is in large part fundamentally critical and impatient of assertion without proof) is difficult for an African - whose attitude of mind is that of acceptance - to assimilate, and to adjust with his obedience to good authoritative tradition. The Committee, therefore, welcomes every effort to provide the highest possible standards locally in order to minimise the necessity for youths to go to a foreign country."

Mr. Oldham drew the Committee's attention to the reference made to co-education. He said that as it was worded in the draft despatch, it looked as if the Committee considered that the girls' schools should be at such a distance from Achimota that it would not be possible for the Principal, Mr. Fraser, to supervise those schools. The Memours concurred that this was not their view, but while they held that the girls' schools should be clearly separated from the College for boys, the former should still be within reach of the Principal's quarters to enable the latter to exercise a close supervision.

Mr. Goodchild and Mr. Ellis then left the Committee.

The Chairman then asked the Committee to consider the last revise of Sir Frederick Lugard's Memorandum on an educational policy. The Memorandum was read out and a number of minor alterations were agreed upon. With these amendments the Memorandum was unanimously adopted as expressing the Committee's opinion on general outlines of a policy for native education in Tropical Africa. It was decided that the Chairman should submit the Memorandum to the Secretary of State proposing that it be printed and issued as a Command paper on the 26th March. Sir Frederick Lugard and Sir Michael Sadler were asked to make such slight alterations as might be advisable in order to improve its literary form, and the Secretary was instructed to get the Memorandum ready for printing without delay.

It was arranged that the next meetings of the Committee should take place at the Colonial Office at 11 o'clock in the morning on April 9th and April 28th. The Secretary was instructed to prepare a paper, in collaboration with the Private Secretary, to be circulated as a supplement to Memorandum I - "The Staff of the Education Department, January, 1925" - if possible in time to allow the discussion of the subject at the next Meeting, April 9th, and further a Memorandum on the use of the vernacular in native schools.

ADVISORY COMMITTEE ON NATIVE EDUCATION
IN TROPICAL AFRICA.

12th Meeting to be held at the Colonial Office
on Tuesday March 10th, 1925 at 11 a.m.

AGENDA.

1. Minutes of the 11th Meeting.
2. Notices of documents received etc. by the Secretary.
3. Memorandum on General Education Policy.

S SENT TO:-

(Minutes of the 12th Meeting.)

Sir M. Sadler.
Sir F. Lugard.
Sir J. Currie.
Bishop of Liverpool.
Monsignor Bidwell.
Major Church.
J.H. Oldham.
Mr. Ormsby-Gore.
Mr. Strachey.
Mr. A.J. Harding.
Mr. Ellis.
Mr. Bottomley.
Mr. Green.
Mr. Seel.

With the Compliments of the Secretary
of the Advisory Committee on Native Education in
Tropical Africa.

March 27th, 1925.

ADVISORY COMMITTEE ON NATIVE EDUCATION IN
TROPICAL AFRICA.

Minutes of the 12th Meeting, held on Tuesday,

March 11th, 1916, at the Colonial Office.

PRESENT:

Mr. Ormsby-Gore (Chairman).

Bishop of Liverpool.

Major Church.

Sir James Currie.

Sir Frederick Lugard.

Mr. Oldham.

Sir Michael Sadler.

Mr. Strachey.

Mr. Viner (Secretary).

Mr. Ellis.

Mr. Seal.

Mr. G. F. Cobachile. (External Registrar, University of London.)

The Minutes of the 11th Meeting were approved subject to certain amendments.

The Chairman thanked Mr. Woodhead for his courtesy in attending the meeting. He had been invited to attend in order to explain to the Committee the conditions under which the University of London was prepared to give diplomas for the external degree. This question had been raised at the previous Meeting, when a proposal received from the Governor of the Gold Coast regarding a native college had been discussed.

How and?

*to bring up the letter to the
Notice of the next Comm.*

3. The Secretary announced that he had received
~~a minute laid before~~
~~an announcement~~ from the Government Hospitality Fund
saying that my Lords of the Treasury had sanctioned
the necessary expenditure for a dinner to be given by
^{in favour of}
the Secretary of State to Dr. Jesse Jones, the
Chairman of the Phelps-Stokes Commission to Africa,
on the 26th March.

6. The Secretary informed the Committee that He had
received a letter from the Director of Education of
the Northern Provinces, Nigeria, referring to the
Memorandum on Uganda Education, and ~~further~~ a letter
from Mr. Oldham proposing that the question of the use
of the vernacular in Native Education in Africa and the
establishment in London of an International Bureau
for the study of African languages and literature should
be placed on the agenda for the next meeting.

4. The Chairman then asked the Committee to
consider the draft resolution dealing with the proposals
received from the Governor of the Gold Coast regarding
Achimota College. He read the paragraph in Mr.
Fraser's proposal as read in the Governor of the
Gold Coast's despatch of December 4th, where the
Principal of Achimota College advocates the London
degree. It was agreed that in the draft reply the
paragraph referring to this matter should be expanded.
At a later stage, Mr. Oldham drew the Committee's
attention to the reference made to education. He
said that if it was done in the draft decision, it
looked/

ADVISORY COMMITTEE ON NATIVE EDUCATION IN
TROPICAL AFRICA.

Minutes of the 12th Meeting, held on Tuesday,

March 10th, 1925, at the Colonial Office.

PRESIDENT:

Mr. Ormsby-Gore (Chairman).
Bishop of Liverpool.

Major Church.

Sir James Currie.

Sir Frederick Lugard.
Mr. Oldham.

Sir Michael Sauter.

Mr. Strachey.

Mr. Vischer. (Secretary.)

Mr. Ellis.

Mr. G.F. Goodchild. (External Registrar, University
of London.)

1. The Minutes of the 11th Meeting were approved
subject to certain amendments.

2. The Chairman thanked Mr. Goodchild for his
courtesy in attending the Meeting. He had been invited
to attend in order to explain to the Committee the
conditions under which the University of London was
prepared to give facilities for the external degree. The
question had been raised at the previous Meeting, when
proposals received from the Governor of the Gold Coast
regarding Achimota College had been discussed.

Hereunder.

*Mr. Grampie to follow to the
notice of the meeting Comm.*

3. The Secretary announced that he had received
~~a minute had come~~
~~an announcement~~ from the Government Hospitality Fund
saying that my Lords of the Treasury had sanctioned
the necessary expenditure for a dinner to be given by
~~in honour of~~
the Secretary of State ~~to~~ Dr. Jesse Jones, the
Chairman of the Phelps-Stokes Commission to Africa,
on the 26th March.

4. The secretary informed the Committee that he had
received a letter from the Director of Education of
the Northern Provinces, Nigeria, referring to the
Memorandum on Uganda Education, and further a letter
from Mr. Oldham proposing that the question of the use
of the vernacular in Native Education in Africa and the
establishment in London of an International Bureau
for the study of African languages and literature should
be placed on the agenda for the next Meeting.

4. The Chairman then asked the Committee to
consider the draft despatch dealing with the proposals
received from the Governor of the Gold Coast regarding
Achimota College. He read the paragraph in Mr.
Fraser's proposal enclosed in the Governor of the
Gold Coast's despatch of December 4th, where the
Principal of Achimota College advocates the London
degree. It was agreed that in the draft reply
paragraph referring to this matter should be expanded.
At a later stage, Mr. Oldham drew the Committee's
attention to the reference made to co-education. He
said that as it was worded in the draft despatch, it

looked/

it.

looked as if the Committee considered that the girls' schools should be at such a distance from Achimota that it would not be possible for the Principal, Mr. Fraser, to supervise these schools. The Members concurred that this was not their view, but while they held that the girls' schools should be clearly separated from the College for boys, the former should still be within reach of the Principal's quarters to make a close supervision, etc.

A minor side impression

5. Asked by the Chairman to do so, Mr. Godchild then explained the provisions made by the University of London for granting the External Degree and the condition under which arrangements were made for examinations, etc:

There are normally three Examinations leading up to a Degree.

The first is the Matriculation Examination, which is common to all Faculties. The standard of this may be defined as equivalent to the standard of a 'Pass with Credit' at any of the School Examinations recognised by the Board of Education, e.g., the Oxford School Certificate (formerly the Oxford Senior Local), the Cambridge School Certificate (formerly the Cambridge Senior Local) etc. These School Examinations are designed for pupils of 16 plus who have been following a normal course in a Secondary School of the type and standard approved by the Board of Education and to be found on their Grant List.

In the Regulations the following special languages have been approved by the Senate as optional languages for Overseas Candidates:- Afrikaans, Arabic, Armenian, Bengali, Burmese, Cambarese, Chinese, Danish, Dutch, Greek (Modern), Gujarati, Hindi, Hebrew (Classical and Modern), Hindi, Hindustani (Urdu), Irish, Japanese, Malay, Malayalam, Marathi, Norwegian, Farsi, Portuguese (Gurmukhi and Perso-Arabic), Persian, Polish, Portuguese, Roumanian, Sanskrit, Scottish Gaelic, Serbian, Siamese, Sinhalese, Swahili, Swedish, Tamil, Teinga, Tigré, Zulu.

The second Examination is the Intermediate Examination. In the more usual Faculties, e.g., Arts and Science, this examination can be covered with relative ease by an average candidate in a Secondary School one year after passing the Matriculation Examination. It is an easier Examination to pass than the Higher School.

Schools

Examination, which normally requires two years' work from a pupil of the same type.

It must be understood that this definition of standard applies only to the Intermediate Examination in the more usual Faculties, e.g., Arts and Science, and does not apply to the more specialised forms of Intermediate in the less usual Faculties, e.g., Laws, Medicine, Engineering, etc.

The standard of the Pass Final Examination is more difficult to define. The course can normally be covered by an average student in a College where teaching of a University type is given, in two years after passing the Intermediate Examination. This Examination is naturally not taken in Schools. The Honours Examinations are again of a widely different type, and, moreover, the difference in standard between the lowest third class Honours and the highest first class Honours is very great.

Examinations in the Colonies. These are granted on the application of any Colony or Dominion through the appropriate channel at home, i.e., the Agent General, or through the Colonial Office. Under no circumstances is any Examination held except upon the application of the Government of the territory concerned. Normally, any Examination conducted entirely by printed papers can be held in a Dominion. Furthermore, an Examination involving a simple viva voce test can also be held in a Dominion provided that the authorities on the spot can secure the services of a suitably qualified person to act as Assistant Examiner in the subject concerned. This would apply to such Examinations as the oral test in the more usual modern languages at an Intermediate Arts Examination, or a B.A. Pass Final.

Practical Examinations in Science have been sanctioned in a number of cases in the Dominions. The essential conditions are the existence on the spot of suitably equipped laboratories, and the availability of a sufficiently qualified scientific man. For example, in Mauritius, practical examinations have been sanctioned in Physics and Chemistry, to be held in the laboratories of either the Agricultural College or the Royal College. A report on the laboratory accommodation from an independent person is always called for by the University before sanctioning the holding of any practical examination overseas.

It is not usual to send out an Inspector from England for this purpose, as hitherto it has generally been found possible to obtain an adequate report from someone on the spot, or occasionally from some qualified member of the University who is visiting the district.

Special Syllabuses. Special Syllabuses have been approved in a few cases for Colonial Examinations, e.g., in Botany where the local flora differs widely, special syllabuses have been approved for Ceylon, Jamaica, etc.

Special/

In I. Lingard asked Mr. Fox-Clive whether the higher set by the
Committee was, or could be, adapted to the local conditions, & based on the
first books in local use. The Committee had laid great emphasis on this
and the of the Examiners gave out one of the same type as hitherto
dealing to practitioners with the basis of the *Roses* & instead of all German
(Austrian & Spanish history) the old system would preferable.
Mr. Fox-Clive said this would be a wise adaptation, & made vigorous entreaties
the Committee to press its view to the Royal importance of the point matter.

etc./

Special languages are allowed to be taken by Oriental candidates in the Intermediate and Final Arts Examinations. Thus Ceylon is allowed to substitute an approved syllabus in Tamil or Sinhalese for the syllabuses in French or German, or correspondingly, Examinations in Sanskrit or Pali for Latin or Greek; similarly in Palestine, candidates may offer Classical Hebrew in place of Latin or Greek."

In the course of the discussions which followed, Mr. Goodchild explained that it had not as yet been the practice of the University to send out Examiners, but he thought this could be done provided that the necessary money for expenses was forthcoming. Usually someone in the Colony, normally acting member of the Education Staff, who has the necessary qualifications was appointed by the London University to conduct the examination. On the scientific side the Departments of Agriculture and Health could supply such men. For practical examinations, it was necessary for the University to have evidence that the laboratories available were properly fitted out. Sir James Currie pointed out that in the Sudan it was the practice to appoint people of special standing to inspect and report upon the schools at regular intervals. Mr. Goodchild stated that the actual fees for holding examinations were small, but that travelling expenses and compensation for loss of time, etc., would probably be asked for if the University was to send out their own examiners or inspectors.

Major Curzon, Sir James Currie and the Bishop of Liverpool all pointed to the danger of making a foreign degree being evolved by means of Native Schools, the aim of the Native School and education system, the primary object of which, they understood, was the establishment of a Native University. In the course of the ensuing discussion Mr. Goodchild showed how in many

many / the ~~various~~ local

cases the details of the different examinations could be adopted to local conditions. The Chairman then pointed out that the question of a degree could wait, but that it was essential from the outset to have a clear view of what type of examination should form the basis for the education to be provided for at Achimota.

Sir James Currie considered it wrong that the whole system should be tied up to one standard of examination. He would rather have the views and ideas on native education as expressed by Sir Michael Sadler and the Bishop of Liverpool to be set up as a standard, as Major Church felt apprehensive of dragging the African along our own lines, which we ourselves were ready to acknowledge were by no means perfect. Sir Michael Sadler then gave the following extracts from the Statutes of the University of Oxford (1924).

Mr Oldham remarked

It was then pointed out that Mr. Fraser's ideas as expressed in his educational work in Ceylon were opposed to ~~any~~ ^{tendency in} westernization, but as Sir Frederick Lugard and other members ~~pointed out~~, it was necessary ^{had said} in the meantime to popularize Achimota, and to provide for its present facilities.

you suggested that it was premature to discuss in detail
revision of the Office Management & Workmen's. It was stated
that at least 10 days before a new Standard was reached
where there were contemplated real changes in the form
of an immediate question as the Standard to be adopted in
negotiation or the existing changes leading up to the degree
it had to be decided based upon the available written
assumptions in regard to what the union bargaining group
was and would be.

provide facilities for men from the Gold Coast ~~to obtain a~~ ^{no means to take} degree in the country of an equally high standing as that which they can obtain by going to London or to an other English University. Sir Michael Sadler urged that while we must aim at a new African standard, we must beware of making the Achimota degree "snub African" and it was then explained that ~~until~~ the system worked out at Achimota by Mr. Fraser had been developed up to the point when the question of the local degree would become actual, there was a very urgent need both for supplying a standard that was clearly recognized as the best available, and ^{as} satisfying the demand on the part of the native for supplying facilities in the Colony to obtain a degree which would put them on the same footing as those of their countrymen who had taken their degrees in England. As the Chairman said, it was necessary for the moment to provide a link and as such the University of London might be suitable.

Sir James Currie mentioned that the medical degree given at Cairo gave Natives of the Sudan and Egypt the same standing and opportunities for work as any external degree, and Sir Michael Sadler drew attention to the great difficulty experienced in India and the danger of doing anything which might lead natives in the direction of living a double life, that is, an English life and an African life. Finally it was proposed by Sir Michael Sadler to substitute for the first seven lines on page 3 of the draft despatch the following paragraph drawn up by Sir Frederick Lugard.

Lugares de la lucha entre gallos.

and embodying Sir Michael Sadler's remarks given in paragraph 2 of the Minutes of the previous Meeting:

The Committee concur that for the present the London examination standards ~~for~~ intermediate and matriculation should be adopted. The question of conferring degrees need not at present be considered in further detail, but the Committee is unanimous in its view that the attitude of western Education (which is in large part fundamentally critical and impatient of assertion without proof) is difficult for an African - whose attitude of mind is that of acceptance - to assimilate, and to adjust with his obedience to good authoritative tradition. The Committee, therefore, welcomes every effort to provide the highest possible standards locally in order to minimise the necessity for youths to go to a foreign country.

(Mr. Goodchild and Mr. Ellis then left the committee.)

6. The Chairman then asked the Committee to consider the last revise of Sir Frederick Lugard's Memorandum on an educational policy. The Memorandum was read out and a number of minor alterations were agreed upon. With these amendments the Memorandum was unanimously adopted, expressing the Committee's opinion on general outlines of a policy for native education in tropical Africa, and it was decided that the Chairman should submit the memorandum to the

www.CFR.org

the/

~~the proposing~~

Secretary of State ~~saying~~ that it ~~should~~ be printed

at alterations and issued as a Command paper on the 26th March.

Sir Frederick Lugard and Sir Michael Sadler were

asked to ~~insert the various amendments and the~~

Secretary was instructed to get the Memorandum ready

for printing without delay.

7. It was arranged that the next Meetings of

the Committee should take place at the Colonial

Office at 11 o'clock in the morning on April 9th

and April 28th. The Secretary was instructed to

prepare, ~~if possible~~, a paper on Education Staff in

~~conjunction~~ with the Private Secretary in time to be

~~considered at the next Meeting, and further a~~

~~Memorandum on the use of the Memorandum in Native~~

~~Schools.~~

~~to be circulated ~~as~~ as a supplement to~~

STATUTA. UNIVERSITATIS OXONIENSIS. (MDCCCCXXIV.)

Page 647 - Miscellaneous. University College of Southampton. (Decree in similar terms with that for the University College of Exeter.)

That, subject to the grant to the University College of Southampton of a Charter of Incorporation giving to the College the right of conferring certain degrees, and establishing a Board of Visitors as part of the Constitution of the College, the consent of the University be given to the appointment by the Hebdomadal Council of a Board of Visitors for the said College, with the following constitution and powers, viz.:-

The Board of Visitors shall consist of five Members, who shall be appointed by the Hebdomadal Council of the University of Oxford.

The Board of Visitors shall have the following powers:-

(1) To receive a report on the qualifications of selected candidates for appointment to Professorships and other Headships of Departments of the College, and to eliminate from the selected list any candidate whose academic qualifications are in their opinion insufficient.

(2) To approve, or if necessary to refer back, the regulations governing (a) the period of study qualifying for a degree. (b) The standard of admission to qualifying courses, and (c) the number and combinations of courses qualifying for a degree.

(3) To appoint the external examiners who shall act with the examiners appointed by the Council in the conduct of all degree examinations of the College, and

and/

to receive a report from the external examiners as to the conduct of the degree examinations and, if necessary to make representations thereon to the Council of the College.

(4) To approve, and if necessary to refer back, the standing orders of the Court for the conduct of degree examinations.

(5) To approve or to disallow the conditions of affiliation of other institutions to the College, and the conditions under which a period of study in these other institutions may be recognised by the College as qualifying for admission to degrees and, if necessary, to inspect, or to appoint persons to inspect, particularly departments in such institutions as seek recognition for this purpose.

(6) To appoint five members of the Council of the College. Members of the Board of Visitors shall hold office for five years.

All expenses incurred by the Board of Visitors to be defrayed by the University College of Southampton.

of local committees.

Dear Sir or Madam,

SCHEME A NEW CERTIFICATES REGISTER

In forwarding herewith a copy of information, a copy of the revised edition of Leaflet No. 910 we would specially draw your attention to the reference on page 2 to the Certificates Register No. 705, a copy of which is also enclosed. This is a new form. It has been introduced to take the place of Receipt Book No. 706, in accordance with generally expressed wish for a simpler form of Register.

In future Certificates Register No. 705 will be sent with the initial equipment supplied to all Associations affiliating to work scheme. A small book of No. 706 will be maintained for the convenience of those Honorary Secretaries of Associations already affiliated who have groups of customers to its user that they do not desire to change, and is anticipated, however, that the large majority of Honorary Secretaries of Associations will prefer the new Certificates Register No. 705 when it is brought to their notice, and that in a short time its use will become general. Particulars will be published in the next issue of "SAVING".

We also forward herewith a copy of the revised edition of Circular of "Local Committee" No. 100. The only material addition is the reference to the new Leaflet No. 104, which deals with the procedure to be followed when a Savings Association ceases to exist. A copy of the Leaflet will be forwarded separately on application.

Yours faithfully

THE NATIONAL SAVINGS COMMITTEE.

DUNNING STREET,

March 10th, 1925.

Dear Sir Frederick,

Thank you for your letter of the 18th, enclosing the Education Act (1921) and the Phelps-Stokes letter. When Dr. Phelps-Stokes first asked me for some words on Tuskegee and Hampton which might help them in their campaign for more funds, he said in his letter that he would have written direct to you but that he did not know you sufficiently well to do so. You replied saying that as you had not visited Hampton or Tuskegee yourself, you did not feel justified in making any comments on the rods, but that the educational value of these institutions represents the highest ideals of education.

education, or words to that effect. You gave me permission to show this letter to Dr. Phelps-Stokes, and that is what I did.

reg. Doing the Memo re religious education in Government Schools, this was originally circulated on January 1st and the different co. i.e. redelved from members with their annotations were forwarded to you when you drafted the final revise of the Education Policy Memorandum. Could you please me to re-circulate the additon on Religious Instruction, no if so, could you let me have a revised incision. the various remarks received would be appreciated.

Yours sincerely,

Forber -
Many thanks I return the Education Policy with Mr. Stokes' letter. This is a brief note which he desires as follows:-
no collection of writing anything -
in future, no further comments on the
new syllabus. Educ. & a few
other points.

Sincerely yours

F. B. Ingall

DUNNING STREET,

March 16th, 1926.

Dear Mr. Goodchild,

Thank you very much for your letter of the 12th of March and for the trouble you have taken in letting me have your notes.

Yours sincerely,

Richard, Esq., South Kensington,
City of London,

University, Southwark, London.
Kensington 7000 (3 lines).

Dear Sir, you should quote No.

REGULATIONS FOR MATRICULATION.

IMPORTANT NOTICE.

The attention of all Students who Matriculate is directed to the following extract from Statute No. 120 : -

"No Student shall be admitted to the final examination for a degree until the expiration of at least three years after Matriculation unless the Senate in special cases or special classes of cases otherwise determine."

These Regulations are revised in September of each year. In important matters affecting Courses of Study two years' notice of change will be given; but in matters of administrative detail, e.g. Date of Entry, etc., Candidates must acquaint themselves with the Regulations issued in the September preceding the date of their respective Examinations. Communications sent from the University to an individual Candidate must be regarded as applying to that Candidate only.

LONDON: UNIVERSITY OF LONDON PRESS:

September, 1924

BR466

A

INSTRUCTIONS TO CANDIDATES.

1. Every candidate must apply to the External Registrar by postcard, not later than twelve weeks before the examination, for a form of entry which, duly filled up and signed, must be returned to the University by the date specified and in accordance with the directions given in the Regulations and on the form of entry.

2. Candidates are warned that failure to comply strictly with these instructions may result in exclusion from the examination.

3. As candidates cannot be admitted after the list is closed, any candidate who may not have received a form of entry within a week after applying for it, should communicate immediately with the Principal Officer, stating the exact date of his application and the place where it was posted. If, by the last date for applying for forms of entry, a candidate should not have received a form of entry, he should telegraph immediately to the External Registrar.

4. The completion of an entry will be acknowledged by sending to each candidate, *at the date stated on the form of entry*, a card of admission bearing a number by which the Candidate is to be designated throughout the examination. The evidence of age and of name will be returned to the candidate at which the card of admission is sent. Candidates are requested to make an acknowledgment; and a stamped envelope and postage.

5. No candidate shall be admitted to the Matriculation Examination unless he shall have completed his sixteenth year on or before the following dates:

In respect of the January Examination, 14th January.

In respect of the June Examination, 1st July.

In respect of the September Examination, 1st September.

Candidates who have passed the Matriculation Examination are not entitled to sit for the same examination again (see p. 3).

6. Any application which candidates may desire to make on the subject of their Examination must be made to the External Registrar and not to the Examiners.

7. The Examination for candidates sitting in London will be held in the UNIVERSITY BUILDING, INGRAM INSTITUTE ROAD, SECR. 1, LONDON S.W. 7, and in such other places as may be authorised by candidates with their cards of admission. Such candidates are advised not to make their final arrangements until they have received their card of admission and those who then hear nothing to the contrary must appear at the University Building.

The Candidates' Pass List will be published as a Supplement to the *London Gazette* on the 10th and will be sent, as soon as copies are available, to every candidate from whom any successful candidate is immune, to the Examiners, the Board of the Examination, and to every successful candidate who has a stamp and address; the envelopes sent to him with the *London Gazette*.

8. Candidates will be informed of the subjects in which they have passed as soon as possible after the publication of the Pass List, but no marks as to the Marks obtained, or the relative position of candidates writing the papers in the Pass List, can be supplied, nor will any report be furnished to candidates who retire during the course of the Examination.

The University cannot undertake to answer applications by telegram or otherwise asking for information communicated or to be communicated in accordance with the preceding paragraphs. The University can make no regulations of, or responsibility for, private arrangements made by candidates or their friends with any person whatever for the supply of telegraphic or other information as to the results of examinations.

The papers set at past Matriculation Examinations are reprinted in pamphlet form and may be obtained on application to the University London Press, St. Paul's House, Warwick Square, F.C., and to all Booksellers.

(To be affixed in the Regulations for the Matriculation Examination, dated September 1924.)

[No. 1.] (1924-25.)

UNIVERSITY OF LONDON.

ALTERATIONS IN AND ADDITIONS TO THE REGULATIONS FOR THE MATRICULATION EXAMINATION.

New Subject at the Matriculation Examination.

The History of the British Empire has been added to the list of optional subjects under Groups (4) and (5) at the Matriculation Examination, but may only be taken provided that no other branch of History is offered.

SYLLABUS.

THE HISTORY OF THE BRITISH EMPIRE, 1485-1901.

The Subject is to be studied in general outline only; detailed knowledge will not be required.

The consolidation of English Government, the personal monarchy of the Tudors, and the re-action under the Stuarts.

English overseas trade, the Chartered Companies and experiments in colonisation.

Early English enterprise in the East Indies.

The Old Colonial System, including the Navigation Acts.

The revolution of 1688 and its effect on Great Britain and the Empire considered as a whole.

The struggle with France in Europe and beyond the sea, 1688-1763.

The American revolution and the causes producing it.

The beginnings of the new empire and the organisation of British rule in India.

The Industrial revolution and political reform in Great Britain to 1832.

Sea power and the Napoleonic war: and their effect on the Extension of the Empire.

The Humanitarian movement, the abolition of the Slave Trade, and the status of slavery.

The development of "responsible government" in Great Britain and the Colonies.

The downfall of the Old Colonial System, and the introduction of Free Trade.

New methods of transport and the rise of the new imperial trade, the supply of food and raw materials from the Colonies.

The adoption of Federal constitutions in the dominions, with special reference to Canada.

Political reform in Great Britain in the latter half of the 19th century.

The new struggle for the acquisition of tropical Colonies and the partition of Africa.

The development of India, 1833-1901.

UNIVERSITY OF LONDON.

REGULATIONS

FOR

MATRICULATION.

All Candidates should read carefully the Instructions to Candidates appended to these Regulations; those proposing to take Examinations at an Overseas Centre must consult and comply with the Special Regulations, which may be obtained from the External Registrar.

Candidates for any Degree in this University, unless admitted under Statute 113 or 113a, must become matriculated students at least three years before entry to the Final Examination for a First Degree.¹

Note.—In order to become a matriculated student, a Candidate must pass either one of the three Examinations conducted by the University, viz.: (1) The ordinary Matriculation Examination, (2) the General School Examination,² (3) the Examination under Statute 116; or one of the Examinations conducted by other Bodies, which is accepted by the University in lieu of the Matriculation Examination. For the General School Examination, the Examination under Statute 116, and the Examinations on which total exemption is granted, the relevant Regulations must be consulted in each case.

Students admitted under Statute 113, or under Statute 116, in virtue of an Examination conducted by another Body,

¹ The Medical and Surgical Degrees of this University are registrable qualifications to practise, and, though desirable, it is not necessary that Students should register as Medical Students in order to qualify themselves to enter for the Examination for these Degrees. For the Diplomas of certain other Licensing Bodies, however, registration as a Medical Student by the General Medical Council is a necessary preliminary, and Students should obtain particulars from the Registrar to the General Medical Council, 44, Hallam Street, Portland Place, W.1.

² For particulars see pages 22, 23.

MATRICULATION EXAMINATION.

must pay a Registration Fee of £3 3s. to the appropriate Registrar.

The Matriculation Examination and all other Examinations of the University are open to men and women.

The shall be three Examinations for Matriculation in each year, one commencing on the second Tuesday in January, the second on the first Tuesday in June; and the third on the second Tuesday in September.

Every Candidate for the Matriculation Examination must apply by postcard to the External Registrar for a form of entry and must observe the following dates:

Examination	Last Date for applying for forms of entry.	Entry date, i.e., last date for return of forms of entry.
January	20th November	1st December.
June	1st April	24th April.
September	26th August	Entered date before the commencement of the Examination.

Each form of entry must be accompanied by (1) documentary evidence of the candidate's age and name and (2) the proper fee.

"INSTRUCTIONS TO CANDIDATES" PRINTED INSIDE THE COVER.

No Candidate shall be admitted to the Matriculation Examination unless he shall have completed his sixteenth year on or before the following dates:

In respect of the January Examination, 14th January.

In respect of the June Examination, 31st July.

In respect of the September Examination, 16th September.

The Examinations in January and June, but not that in September, may be held not only at the University, but also in other parts of the United Kingdom, and in the Dominions and Colonies. For particulars see pages 24, 25, and Colonial Regulations.

A Certificate from the Registrar General in London or from the Superintendent Registrar of the District, or a certified copy of the Baptismal Register, or a Statutory Declaration of the candidate's age made before a Magistrate or a Commissioner for Oaths by his parent, or by the Principal of his School, or by the candidate himself, or by his Guardian, or by the Principal of a School, in any case in which the name used is not of full age, will be accepted. In any case in which the name used by the candidate differs from that given in the certificate, a Statutory Declaration must be produced in support of the change.

MATRICULATION EXAMINATION.

Every Candidate entering for the Matriculation Examination must pay a Fee of Two-and-a-half Guineas. If a Candidate withdraws his name before the last day assigned for the return of the Form of Entry, the Fee shall be returned to him. If he fail to present himself at the Examination, he will receive back the Fee paid less One Guinea. If he retires after the commencement of the Examination, or fail to pass it, the full Fee must be paid upon every re-entry. Nevertheless, should a Candidate on account of illness either fail to present himself at the Examination, or, having presented himself, retire therefrom, the Principal Officer may, at his discretion and on receipt of Medical Evidence satisfactory to him, return to the Candidate a sum not exceeding three-fifths of the Fee paid, and in the case of infectious illness (whether of the Candidate himself or of a person with whom he has been in contact), the amount of the whole Fee paid. These arrangements apply only to the above-mentioned ordinary Fee, and not in cases in which any Special Fee is charged.

Except in accordance with the conditions of the paragraph next following Matriculated Students are not permitted to take the Matriculation Examination as a whole; but any Matriculated Student may enter for the Matriculation Examination with a view to passing in one or more Supplementary Subjects. The Fee payable is One Guinea for each subject, in addition to any special Fee payable. Every such Candidate must apply by the date specified (see page 2) in respect of the Matriculation Examination for a special Form of Entry for the Matriculation Supplementary Certificate.¹

For the purpose of competing for Scholarships or Exhibitions awarded otherwise than by the University, Matriculated Students may be admitted to the Matriculation Examination; but the results of such re-examination will be communicated only to the Body making the award; the names of successful Candidates will not appear on the Pass-List, and no certificates will be awarded to them.

The Examination shall be conducted by means of printed papers; but, for the purpose of ascertaining the competence of a Candidate to pass, the Examiners may test the candidate by means of *ex a口e questions*.

No Candidate shall pass the Examination unless he shall at one and the same Examination satisfy the Examiners as to

¹ Candidates as a rule may be examined only for Supplementary Certificates in the subjects set out in the Regulations. For information whether a Supplementary Examination in any Optional Language can be held, application should be made to the External Registrar.

² But see note 2 on page 4.

MATRICULATION EXAMINATION.

Electricity and Magnetism.

Botany.¹Zoology.²Geology.²Music.³

Instead of one of the languages mentioned under headings (4) and (5) on page 4, a candidate may take another language provided the same shall have been approved by the University. Every candidate who desires to take a special language under this Regulation must fill in and return three months before the commencement of the examination for which he intends to enter a special form of application which may be obtained from the External Registrar. An additional fee of Two Guineas is payable in respect of every special language taken under this Regulation, and such fees is not returnable in any circumstances. When applying for the special form referred to, candidates should state (i) the date upon which they propose to enter for the Matriculation Examination, and (ii) the remaining optional subjects selected by them.

The following special languages have been approved by the Senate:—Afrikaans, Arabic, Armenian, Bengali, Burmese, Canarese, Chinese, Danish, Dutch, Greek (Modern), Gujarati, Hausa, Hebrew (Classical and Modern), Hindi, Hindustani (Hindu), Irish, Japanese, Malay, Malayalam, Marathi, Norwegian, Pali, Panjabi³ (Gurmukhi and Persian-Arabic), Persian, Polish, Portuguese, Romanian, Sanskrit, Scotch-Gaelic, Serbian, Siamese, Sinhalese, Swahili, Swedish, Tamil, Telugu, Turkish, Yoruba, Zulu.

The following are the particulars of the foregoing subjects of examination:

Note.—In and after 1926 Revised Syllabuses will be substituted for the existing Syllabuses in English, Latin, Greek, French, German, other Modern European Languages, and History, found on pages 18, 19, 20.

In this examination special stress is laid on competence in drawing. This subject can be taken only in those Dominions and Colonies in which special arrangements have been approved by the Senate. Candidates for Examination in this subject must give notice and pay their fees at least two months before the commencement of the Examination.

Candidates offering Panjabi may use either the Gurmukhi script or the Persian-Arabic character, and when making their entry they must state which they prefer to use.

COMPULSORY SUBJECTS FOR ALL CANDIDATES.

- (1) English. Two papers covering three hours.
- (2) Elementary Mathematics. Two papers of three hours each.

OPTIONAL SUBJECTS TO BE SELECTED BY THE CANDIDATE.

(3) Latin¹, or Greek², or Botany, or Chemistry, or Heat, Light, and Sound, or Mechanics, or Electricity and Magnetism. One paper of three hours in the subject selected.

(4) and (5) Two of the following subjects, neither of which has already been taken under Section (3). One paper of three hours in each subject. If neither Latin nor Greek has been taken under Section (3), one of the other subjects selected must be a Language other than English:—

Latin. ³	Italian.
Greek. ²	Russian.
French.	Spanish.
German.	Welsh.

Either Ancient History, or English History^{2,3}, or Modern European History.

Geography³.

Logic.

Geometrical and Mechanical Drawing.

Mathematics (more advanced).

Mechanics.

Chemistry.

Heat, Light and Sound.

¹ Not more than five subjects may be offered.

² Inasmuch as Latin or Greek is compulsion at the Intermediate Examination in Arts, candidates proposing to enter for that examination are advised to take Latin or Greek at the Matriculation Examination. If an intermediate (other than Graduate of the University), who have not passed with Latin at their Matriculation Examination, will be required to pass in Latin at the Matriculation Examination, or at an equivalent examination in that subject before proceeding to the Intermediate Examination in Arts with Latin (see Regulations in Arts for Intercollegiate Students). Candidates who intend to proceed to Arts, are advised to include Latin and English History in the subjects of their Matriculation Examination.

³ At the January, June, and September Examinations in 1926 a number of alternative questions on Empire History will be set in the English History papers, and on Empire Geography in the Geography papers.

I.—ENGLISH

The examination in English will consist of two papers, covering three hours, and will include:

- A subject for an essay, to be chosen by each Candidate from several subjects set. Those proposed may include some having reference to Geography and History, and some involving an acquaintance with English Authors, as well as more abstract subjects, the main object being to test power of expression, thought and arrangement, general reading, and knowledge.
- Questions testing knowledge and command of English. These may include questions on précis writing, paraphrase, and analysis of sentences.
- Questions testing general reading and knowledge of English books.

Candidates are expected to devote to the Essay at least one hour after the expiry of which they will be supplied with the second paper.

II.—ELEMENTARY MATHEMATICS

There will be two papers, one in Arithmetic and Algebra and the other in Geometry.

Arithmetic:

Elementary principles and processes of Arithmetic. The principles of vulgar and decimal fractions (excluding recurring decimals).

Knowledge and use of the tables required, both in the English and Metric System, for the measurement of length, area, volume, capacity, weight and time.

Measurement of the rectangle, parallelogram, triangle and trapezoid. (*Note.*—Questions on these may be such as will involve the application of Algebra and Geometry.)

Averages, Ratio, Proportion, Percentages.
Practical applications of Arithmetic.

Great importance will be attached to correct working. The use of Logarithms is allowed except in questions where they are expressly forbidden.

Logarithms and Calculations in English only, see page 23.
Logarithmic or logarithmic logarithmic tables will be supplied to Candidates in the room. Candidates who so desire can obtain copies of these tables from the University of London Press, 17, Warwick Square, E.C.4. Candidates are not permitted to bring their own copies into the Examination Room.

In and after 1929 this sentence will be deleted and the following sentence substituted: "Weight will be attached both to accuracy of working and correctness of method."

Algebra:

The fundamental processes of Algebra.

Symbolical expression of general results in Arithmetic. Interpretation and evaluation of Formulae. Changing the subject of a Formula.

Factors of expressions of simple types.

Equations of the first and second degree containing one unknown quantity. Simultaneous equations of the first degree, and two simultaneous equations of which one is of the first degree and the other of the second degree.

Easy examples in fractions.

Graphs of simple algebraic functions with easy applications.

Simple questions on fractional and negative indices (formulae not being required).

Use of logarithms to the base 10. (See footnote on preceding page.)

Arithmetic and Geometric Series.

Application of Algebra to the solution of problems.

Geometry:

The subjects of Euclid I.-IV., with simple deductions, including easy loci and the areas of triangles and parallelograms of which the bases and altitudes are given commensurable lengths.

Euclid's proofs will not be insisted on, but all proofs of geometrical theorems must be geometrical. The use of properties of similar figures will be allowed.

III.—OPTIONAL LANGUAGES.**LATIN.**

The paper shall contain passages to be translated into English from Latin books not previously prescribed, together with questions on Grammar and simple and easy sentences of English to be translated into Latin.

GREEK.

The paper shall contain passages to be translated into English from Greek books not previously prescribed.

In and after 1929 this phrase will be deleted and the following phrase substituted: "Simple applications of the above."

Candidates in order to pass must satisfy the Examiners in translation at sight from English into Latin, from Latin into English, and in Grammar.

together with questions on Grammar and simple and easy sentences of English to be translated into Greek.

FRENCH.

The paper shall contain (1) passages for translation from French, (2) a fairly easy and a more difficult passage for translation into, and a fairly easy and a more difficult subject for free composition in, French candidates being allowed the option of doing either the more easy translation and the more difficult free composition, or the more difficult translation and the more easy free composition.

GERMAN.

The paper shall contain (1) passages for translation from German, (2) a fairly easy and a more difficult passage for translation into, and a fairly easy and a more difficult subject for free composition in, German candidates being allowed the option of doing either the more easy translation and the more difficult free composition, or the more difficult translation and the more easy free composition.

OTHER MODERN EUROPEAN LANGUAGES.²

The paper in any other Modern European Language approved for the Matriculation Examination, shall be drawn up as nearly as may be practicable in conformity with the following syllabus³.

The paper shall contain (1) an easy passage or easy passages for translation from the language in question, (2) a fairly easy and a more difficult passage for translation into, and a fairly easy and a more difficult subject for free composition in, the language in question; candidates being allowed the option of doing either the more easy translation and the more difficult free composition, or the more difficult translation and the more easy free composition.

ORIENTAL LANGUAGES (INCLUDING HEBREW).²

The paper in any Oriental Language, including Hebrew, approved for the Matriculation Examination, shall be drawn up as nearly as may be practicable in conformity with the following syllabus³.

The paper shall contain (1) an easy passage or easy passages for translation from the language in question, (2) an easy piece for translation into the language in question, or, as an alternative, an essay of a simple

specie of stress is laid on accuracy in the answers to the Grammar questions and on the correct rendering of English into Greek.

See page 5.

² Candidates in order to pass must satisfy the Examiners in translation at sight from English into the selected language, and from the selected language into English.

character to be written in the language in question, (3) questions on Grammar, limited to Accidence and Elementary Syntax. Candidates will be required to satisfy the Examiners in each of the three sections of the syllabus. Candidates offering Modern Hebrew are required to use the Square Script but are permitted to make use of Hebrew grammatical terminology where the English terminology is difficult of application.

IV.—HISTORY.

The questions will be framed to test the general conceptions of history and historical development rather than technical detail.

ANCIENT.

The general course of Greek and Roman History, and an outline of the earlier Monarchies.

ENGLISH.

The general course of English History from 1485 to the death of Queen Victoria, with some reference to the contemporary history of Europe and Colonial developments.

MODERN EUROPEAN.

The period from 1789 to 1910.

V.—GEOGRAPHY.

A broad study of the outlines of the geography of the world as a whole and of its larger natural regions.

The following regions in decreasing detail:—(a) England and Wales, (b) Scotland and Ireland, (c) Europe, the Mediterranean, the North Atlantic; North America and Greenland, (d) the remaining Continents. Recapitulation from the point of view of the British Empire.

Attention should be directed to the following aspects of the several regions:—The broad contrasts and chief features of the land-relief. The chief features of the coastal outline as related to those of the relief. The disposition of the water-partings and of the chief river basins. The winds and sea-currents, distribution of rainfall, the climatic contrasts, and the resulting agricultural contrasts. The districts of exceptionally dense or rare population considered in relation to their position, natural resources, and industrial activities. The arrangement of the political divisions upon the land relief and with reference to the drainage system. The analysis of the positions of the great towns.

Candidates will be expected to understand the main physical causes of the phenomena they describe, such as variations of atmospheric temperature and pressure, their seasonal and regional distribution; the causes of precipitation, winds,

¹ See footnote 3, page 4.

their cause and prevalence in different regions, the interpretation of weather charts, and the meaning of the net-work and other conventional symbols employed in maps. Time need not be spent in elaborate map-drawing. The answers in the examination should be illustrated, where necessary, by simple diagrams, correct in general proportion, but without detail. Candidates may be expected to identify maps without names, to insert upon such maps the position of geographical features, and to work problems as to local time.

VI.—LOGIC.

The Term: classification of terms, denotation and connotation.

Division, Definition, the Predicables.

The Proposition: classification of propositions; reduction of sentences to logical form.

Laws of thought, opposition of propositions, immediate inference.

The Syllogism: moods and figures, the expression of arguments in syllogistic form.

Hypothetical and disjunctive propositions and arguments.

Inductive reasoning in its various forms.

Observation and experiment: canons of scientific induction.

Combination of induction and deduction; Hypothesis and explanation.

Pallaces.

These three subjects will be treated in a specially elementary manner.

VII.—GEOMETRICAL AND MECHANICAL DRAWING.

Plane Geometry:

Construction of scales, angles, quadrilaterals and polygons. Problems on circles and tangents and on areas of plane figures. Simple problems on loci, including paths of points in elementary linkwork. Construction of Archimedean spiral, ellipse, cycloid and involute of circles, with their tangents and normals.

Solid Geometry:

Elementary projections of points, lines, planes, inclined surfaces and solids, including the cylinder, cone, and sphere. Simple sections. Projection of additional plans and elevations.

Isometric or oblique projection, without using "isometric sets" of simple plane surfaces and solids.

Developments of the surfaces of simple solids; elementary problems in interpenetration of prisms, cylinders and cones, and developments of penetrated surfaces.

Projection of simple hexax and square-threaded screw.

Machine Drawing:

Making scale drawings, two or more views, with simple sections of elementary machine parts, from rough partly-dimensional sketches.

VIII.—MATHEMATICS (more advanced).

Harder questions may be set on the syllabus of Elementary Mathematics.

Algebra:

Theory of indices, logarithms, and the use of logarithmic tables.

Theory of quadratics.

Permutations and Combinations.

Binomial Theorem for a positive integral index.

Trigonometry:

Including the addition formulae and the solution of triangles, together with the practical solution of triangles and applications, and numerical examples involving the use of logarithmic and other tables.

Geometry:

Similar figures.

Mensuration of the Circle.

Elementary Co-ordinate Geometry of the straight line and circle.

Calculus:

Limits. Gradient of a graph.

Differentiation of sum, product and quotient of functions. Differentiation of a function of a function.

Differentiation of simple algebraic functions involving positive and negative integral powers of the variable.

Differentiation of elementary trigonometric functions (the inverse functions are excluded).

Simple questions on maxima and minima.

Integration of expressions formed by sums of terms of the type x^n (excluding $n = -1$), $\sin nx$ and $\cos nx$. (Integration by parts is excluded.)

Elementary questions and problems involving differentiation and integration with simple applications to rates, areas, and volumes.

The Sections on Geometry and on Calculus are alternative. Candidates may not attempt questions in both.

Five figure logarithmic tables will be supplied by the University.

IX.—OPTIONAL SCIENCES.

The Examinations in Sciences shall aim at ascertaining whether Candidates possess a knowledge of fundamental scientific methods, acquired by observation of nature or by a simple course of experiment in physical measurement, or by the investigation of simple problems and commonly occurring phenomena illustrating natural laws.

MECHANICS.

Elementary notions of Displacement, Velocity, and Acceleration.

Motion of a body with constant Acceleration.

Resolution and Composition of Velocities, Accelerations, &c.

Elementary notions of Mass and Momentum.

Elementary notions of Force as measured by rate of change of momentum.

Newton's Laws of Motion.

Kinetic Energy, and Work.

Units of Space, and Measurement.

Balancing of Forces.

Torques or Moments.

Conditions for the equilibrium of Three Parallel Forces.

Resolution and Composition of Parallel Forces in one Plane, Centre of Parallel Forces, Centre of Gravity, Stability, Uniform and Neutral Equilibrium.

Conditions for the equilibrium of Three Forces not parallel, Triangle and Parallelogram of Forces, Moments.

Simple illustrations of Conditions of Equilibrium and of the Principle of Work, as in levers, pulleys, the inclined plane, &c. Pressure in Liquids, variations with depth.

Transmission of Liquid Pressure, Hydraulic Press.

Pressures, immersed and floating bodies.

De ~~say~~ methods of determining Relative Densities.

Relation between volume and pressure in Gases.

Atmospheric Pressure.

CHEMISTRY.

Combination and Decomposition. Elements and Compounds.

Elementary experimental study of air, water, and calcium carbonate. Solvent power of water. Natural waters, solution, crystallisation, and distillation.

Elementary experimental study of oxygen, hydrogen, carbon, sulphur, nitrogen, phosphorus, chlorine, and other common compounds, together with bromine and iodine so far as is required to show their relationship to chlorine.

Composition and properties of silica, action of silica upon bases, nature of glass.

General characteristics of the metals, including an elementary study of sodium, calcium, and iron, and their common compounds.

The oxidation of the metals magnesium, zinc, iron, copper, lead, and the properties of their oxides. The interaction of these metals and their oxides with the common acids.

Action of water on sodium, magnesium, and iron. The reversible character of the action of water on iron.

Elementary experiments illustrating the quantitative nature of chemical combination.

Quantitative interaction of acids with metals and bases.

Equivalents—Atomic Theory, Symbols and Formulae. Boyle's and Charles' Laws. Diffusion.

The more obvious phenomena of Electrolysis. Development of heat in chemical reaction; Combustion, Flame and Incandescence.

Candidates will be required to give evidence by their answers that they have seen experiments illustrative of all the subjects included in the Syllabus, and that they have themselves performed a variety of simple qualitative and quantitative experiments.

The questions set will have regard to the conditions under which the subject may best be experimentally taught in schools.

HEAT, LIGHT AND SOUND.

Heat.

Temperature. Construction and use of the Mercury Thermometer.

Expansion of Solids and Liquids with rise of Temperature. Effect of change of Temperature on the Volume and Pressure of Gases.

Quantity of Heat. Specific Heat.

Change of State. Latent Heat. Elementary notions of the transfer of heat. Heat considered as a form of Energy.

Light.

Propagation of Light. Laws of Reflection and Refraction. Reflexion at Plane and concave Spherical Surfaces, and the formation of Images.

Refraction at Plane Surfaces and in Prism. The Spectrum. The formation of Images by single convex lenses. The simple magnifying glass. Photometry.

Sound.

The production and propagation of Sound. Nature of Wave-motion. Amplitude, Wavelength and Frequency.

Experimental determination of the Velocity of Sound in Air.
Determination of Frequency by simple methods.
Experiments on the modes of Vibrations of Strings.

The questions set will have regard to the conditions under which these subjects may best be experimentally taught in schools.

ELECTRICITY AND MAGNETISM

Simple Phenomena of Magnetism; Properties of Magnets, The Law of Magnetic Force, Lines of Force, Magnetic Moment.

The simpler Phenomena of Electrified Bodies, Conduction and Insulation, Electrification by Friction and by Induction (Indifference).

Quantity of Electricity.

The Law of Electric Force.

Lines of Electric Force.

Electric Currents.

The simple Voltaic Cell, the Daniel Cell.

Magnetic Field of Current, Galvanometers.

Simple Electromagnets.

Electromotive Force—Resistance.

Ohm's Law.

Heating effects of Currents.

Elementary Phenomena of Electrolysis.

The simple phenomena of induced Currents.

Induction Coils.

The questions set will have regard to the conditions under which these subjects may best be experimentally taught in schools.

BOTANY

1. The appearance and structure of the organs of a flowering plant so far as these can be observed with the naked eye or with the aid of a hand lens.

The functions of these organs so far as they can be ascertained by observation and simple experiment.

2. The main phenomena of the life-history of common flowering plants (excluding the microscopic processes of maturation and union of the sexual elements and of the development of the seed). The mechanisms of pollination, fruit and seed dispersal, Germination, particularly as illus-

trated by the following hand-lens, a sharp knife, drawing pencil and shading paper. In this examination special stress is laid on comparative anatomy. This subject can be taken only in those Dominions and Colonies in which special arrangements have been approved by the Senate.

trated by seedlings easily grown in the garden or in pots or boxes. The structure of garden soil. Different types of soil and their water and air contents. Rough methods of mechanical analysis of soils.

3. The nature and structure (excluding microscopic details) of the vegetable materials met with in everyday life, such as wood, cork, &c. (excluding manufactured substances); also of the common edible fruits and vegetables.

4. The description of a flowering plant (not necessarily belonging to one of the Natural Orders enumerated below) and a knowledge of the following Natural Orders, as illustrated by wild or commonly cultivated plants:—Ranunculaceæ, Cruciferæ, Caryophyllaceæ, Leguminosæ, Rosaceæ, Composite, Primulaceæ, Scrophulariaceæ, Labiateæ, Salicaceæ, Iridaceæ, Liliaceæ.

5. An elementary knowledge of the nutrition, growth, irritability of plants, particularly of such facts as can be demonstrated by simple qualitative and quantitative experiments. Candidates will be expected to show evidence that they have performed such experiments themselves.

The questions set will have regard to the conditions under which these subjects may best be experimentally taught in schools.

(An elementary knowledge will be assumed of the chemical and physical properties of the atmosphere and of water, together with some acquaintance with the use of the barometer and thermometer.)

6. The main features of the more easily accessible types of British Vegetation, and of the different habitats in which they are found. Common weeds of cultivated soil, and the causes of their prevalence.

(An elementary knowledge of the adaptations shown by native plants to their environment.)

7. The outlines of the cellular structure of the living plant shown for example in simple fresh-water algae and in the mesophyll of a foliage leaf.

ZOOLOGY

1. The general principles of animal life treated in an elementary fashion and illustrated by the types specified in paragraph 2. Growth and Metamorphosis, as illustrated by the frog and butterfly. Conditions under which life can exist. Differences between animals and plants.

See note 2 on page 5.

2. The gross structure of the skin; the skeleton; the alimentary tract and its glands; the respiratory mechanism; the vascular system; the central nervous system; and the functions of these organs in a typical mammal.

3. The structure and mode of life of Amoeba and Hydra treated in an elementary manner.

4. The chief external characters and mode of life of a jelly fish (Aurelia), an anemone, and a coral; an earthworm, a crayfish or lobster, a blow-fly, a bee, a butterfly, a spider (the structure of the mouth-parts of the foregoing Arthropoda not to be studied in detail), a starfish, a fresh water mussel, and a snail, a fish, a frog, a lizard, a tortoise, and a snake, and a typical bird and mammal.

Candidates must possess a practical acquaintance with the external characters of the types specified in Section 4.

5. The distinguishing features of the following groups: Protozoa, Coelenterata, Echinodermata, Annelida, Arthropoda (Crustacea, Insecta, Arachnida, Mollusca, Vertebrates (Fishes, Amphibians, Reptiles, Birds, and Mammals).

GEOLGY.

1. The Crust of the Earth. Nature of common Rocks and Rock-forming Minerals.

2. The Oceans. Nature of ocean floors and sea margins and their connection with sedimentary Rocks. Action of the sea in Dissolution and Deposition.

3. Credibility of Atmospheric forces. Formation of spines, Rivers, and lakes. Cyclical action of wind, rain, rivers, etc., Materials used by these agencies and comparison of them with sedimentary Rocks. Origin of valleys, estuaries and deltas.

4. Internal movements acting in the Earth's crust. Bending, buckling, and Fractures of different kinds. Induration, Jointing, and Cleaving. Earthquakes and Volcanic phenomena.

5. Forms of the Earth's surface resulting from the action of internal and external forces. Escarpments, Outliers, Toliers, Unconformities, Igneous Intrusions. Production of different types of Scenery.

6. Fossils, their nature and uses to the geologist and biologist. General succession of the Fossiliferous Strata. Candidates are expected to have practical acquaintance with the commonest minerals, rocks, and fossils.

¹ See note 2 on page 5.

X.—MUSIC.

Candidates must be prepared to undergo the following tests:

1. To answer questions on the Rudiments of Musical knowledge including the Transposition of a musical passage and the naming of the keys through which it passes, in both the original and the transposed versions.

Not more than three questions will be set in the foregoing subject.

2a. To complete a melody of not less than 8 bars in all, the opening of which will be given. The melody to modulate at least once, and return finally to the original key.

Or, optionally,

2b. To write a melody to a given stanza of poetry.

3. To show a competent knowledge of Triads and their inversions, the Dominant 7th and its inversions, suspensions, passing-notes (accented and unaccented), evasions and simple modulation.

N.B.—The tests under heading 3 will include:

(i) The writing of specified harmonies in their suitable context;

(ii) The addition of a Melodious under part to a given melody, making good two-part harmony;

(iii) Either the harmonising of a melody in a way suitable for a singing Trio, or, alternatively, the writing of a simple piano-forte accompaniment to a given melody.

The Candidate will also be required to give a concise analysis of a movement in Sonata form, written for the Piano-forte.

(iv) The writing of a Modulation from a given key to a related key.

4. To show some knowledge of musical works and their composers.

The questions to be set will include:

(i) The identification of short extracts from British National songs or from well-known instrumental works;

(ii) An acquaintance with the details of musical history. A specimen paper will be set for each year's examination.

N.B.—Detailed biographical information will not be required.

For 1925 and 1926—The Haydn—Mozart—Beethoven period.

Revised Syllabuses.

In and after 1926 the following Syllabuses will be substituted for the existing Syllabuses in the respective subjects.

ENGLISH.

The Examination in English will consist of one paper of three hours, and will include:

(a) A subject for an essay to be chosen by the candidate from several subjects set, the main object being to test power of expression, thought, and arrangement.

(b) Questions testing knowledge and command of English. These may include questions on précis-writing, paraphrase, and analysis of sentences.

(c) Questions testing knowledge of specified English books. Candidates are expected to devote about one hour to the essay.

The following books are prescribed for 1926, 1927, and 1928 in connection with Section (c) of the above Syllabus:-

1926 - Shakespeare : *Richard III*.

M. Arnold : *Sohrab and Rustum; The Scholar Gypsy; Phrygia*.

Swift : *Gulliver's Travels*. Voyages 1 and 2.

1927 - Shakespeare : *Henry IV, Part I*.

M. Arnold : *Sohrab and Rustum; The Scholar Gypsy; Phrygia*.

Bunting : *Selected Essays* (ed. G. Sampson, Cambridge Univ. Press).

1928 - Shakespeare : *Hamlet*.

Milton : *Paradise Lost Bk II*.

Baztai : *Selected Essays*, (ed. G. S. Watson, Cambridge Univ. Press).

LATIN.

The paper shall contain (1) passages to be translated into English from Latin books not previously prescribed; (2) simple and easy sentences of English to be translated into Latin; (3) questions on Grammar.

Note. - Footnote 2 on page 7 of the current Regulations will be deleted.

GREEK

The paper shall contain (1) passages to be translated into English from Greek books not previously prescribed; (2) simple and easy sentences of English to be translated into Greek; (3) questions on Grammar.

Note. - Footnote 1 on page 8 of the current Regulations will be deleted.

FRENCH.

The paper shall contain (1) passages for translation from French into English and (2), at the choice of the candidate, either a fairly easy subject for Free Composition in French, together with a more difficult passage for translation into French, or a more difficult subject for Free Composition, together with a fairly easy passage for translation.

GERMAN.

The paper shall contain (1) passages for translation from German into English and (2), at the choice of the candidate, either a fairly easy subject for Free Composition in German, together with a more difficult passage for translation into German, or a more difficult subject for Free Composition, together with a fairly easy passage for translation.

OTHER MODERN EUROPEAN LANGUAGES.

The paper in any other Modern European Language approved for the Matriculation Examination shall be drawn up as nearly as may be practicable in conformity with the following syllabus:-

The paper shall contain (1) passages for translation from the language in question into English and (2) either a fairly easy subject for Free Composition in the language in question, together with a more difficult passage for translation into the language in question, or a more difficult subject for Free Composition, together with a fairly easy passage for translation.

HISTORY.

The questions will be framed to test general knowledge of history and historical development rather than memory of detail.

One of the following Branches (one paper of three hours will be set in each Branch):

(a) *Greek History*.

From 776 B.C. to 323 B.C.

(b) *Roman History*.

From 264 B.C. to 180 A.D.

(c) *English History*.

The general course of English History from 1066 to 1901 with some references to the contemporary history of Europe and Colonial developments.

The paper will be divided into four sections, covering respectively the periods 1066-1485, 1485-1688, 1688-1815, 1815-1901, and candidates will be required to answer questions from two out of the four periods.

(d) European History.

One of the four following periods :-

- (i) From 1046 to 1484.
- (ii) From 1484 to 1715.
- (iii) From 1648 to 1815.
- (iv) From 1789 to 1914.

ORDER OF EXAMINATION.

The Examination shall be conducted in the following order :-

First Day.

Afternoon, 2.30 to 5.30 ... English Essay and English (1).
(The Paper in English will be given out at 3.30.)

Second Day.

Morning, 10 to 1 ... Elementary Mathematics (2).
Afternoon, 2.30 to 6.30 ...

Third Day.

Morning, 10 to 12 ... Latin (3).
Greek (4).

Greek (4).
Drawing—Geometrical and Mechanical (5).
Botany (6).
Chemistry (7).
Heat, Light and Sound (8).
Mechanics (9).
Electricity and Magnetism (10).

Fourth Day.

Botany (6).
Chemistry (7).
Heat, Light and Sound (8).
Mechanics (9).
Electricity and Magnetism (10).
Ancient History (11).
Modern European History (12).
English History (13).
French (14).
Welsh (15).
Spanish (16).
Geography (18).
Logic (19).

Fifth Day.

French (14).
German (15).
Welsh (16).
Spanish (17).
Geography (18).
Logic (19).
Mathematics, more advanced (20).
Music (21).

Changes in the details of this order may be found necessary from time to time, and in all such cases the notice will be given to Candidates.

Except in the case of English and Elementary Mathematics Candidates will be allowed to take only one paper in each subject. Two papers will be set in many other subjects in order to compress the Examination into as short a period as possible, but no Candidate will be allowed to take more than one of these papers. No option is allowed as to the order in which they are taken, and if the Candidate does not present himself for examination in a given subject at the right time, he will on no account whatever be allowed to take a paper which may be set later in the same subject. It is, therefore, of the greatest importance that Candidates should attend to the following rule :-

Candidates, having selected their subjects in accordance with the Regulations, will be examined in these subjects in the numerical order in which they occur in the above list, and must take each subject on the first possible occasion accordingly.

Thus for example a Candidate who offers, in addition to English and Mathematics (Elementary), Botany, Mechanics, and French, must take Botany (No. 6) on the afternoon of the third day, Mechanics (No. 9) on the morning of the fourth day, and French (No. 14) on the afternoon of the fourth day. Again, a Candidate who offers Latin, French (14), and German (15), must take French in the morning and German in the afternoon of the fourth day.

Candidates who take any of the subjects for which two months' notice or more is required will be informed of the dates upon which the Examinations in these subjects will take place.

At two o'clock on Saturday in the sixth week after the January and in the seventh week after the June Examination, the Principal Officer shall publish a list of the Candidates who have passed, arranged in alphabetical order in two Divisions—a First Division and a Second Division.

At two o'clock on October 1st (except when this date shall coincide with a Sunday, when the following day will be substituted), the Principal Officer shall publish a numerical list of the Candidates who have passed at the September Examination, and shall, either then or as soon as possible thereafter, publish a list arranged in alphabetical order in two Divisions—a First Division and a Second Division.

A Pass Certificate, signed by the Principal Officer and setting forth the Subjects of Examination taken by the Candidate, shall be delivered to each successful Candidate after the Report of the Examiners shall have been approved by the Board.

As a rule, Certificates are ready for issue about a month after the publication of the Pass-List, and, in the absence of any request to the contrary, will be posted to the address given on the Form of Entry.

Summary of the Regulations for the General School Examination for School, School Commercial, and Matriculation Certificates.

[For this Examination the University enters into relations only with Schools, and no application for Examination can be considered unless sent in through the School Authorities.]

The University holds in schools an Examination called the General School Examination under the following conditions—

- (a) that the School is under Inspection approved by the University, and
- (b) that the course of instruction given in the School and the curriculum pursued by the pupils have been approved by the University.

Any pupil who has pursued an approved course of study in the School is eligible to be entered for the General School Examination. The standard for Matriculation by means of the General School Examination is in each subject that of the Matriculation Examination, but certain subjects may be taken at the School Examination for Matriculation purposes which are not subjects of the Matriculation Examination and certain other subjects may be included for the School Certificate which are not subjects for Matriculation. In Modern Languages there is an Oral Examination in addition to the Written Examination.

The School Certificates of the General School Examination are awarded to pupils who—

- (i) have pursued a course of study at an approved School or Schools under inspection by the University or the Board of Education, and
- (ii) have passed the General School Examination at one and the same Examination in accordance with the scheme set out in the Regulations.

Each Candidate for the General School Examination will be required to pay a Fee of Two Pounds Seven Shillings and Sixpence.

If the Candidate qualifies for Matriculation, a further Fee of Seventeen Shillings and Sixpence will be payable on Registration. The standing of students registered under Statute 116 in virtue of having passed the General School Examination dates from the Matriculation Examination immediately preceding the application for Registration, but no student may apply for registration before attaining the age of sixteen, and no student will be registered before the date of the Matriculation

A copy of the detailed Regulations may be obtained by School Authorities on application to the Principal Officer.

Examination immediately following the completion of his sixteenth year (except that a student who attains the age of sixteen between June 7 and July 31 will be registrable from the June Matriculation Examination).

The Scheme for the Examination also makes provision for the award of School Commercial Certificates.

A School desirous to present pupils for the General School Examination is required to make application to the University, and to submit a general statement of the completed course of instruction given in the School and the curriculum of study pursued by the candidates, for the approval of the University.

The General School Examination is held each year at Midsummer and in December.

A School Examination may also be held at any other time the University may fix. The University will further be prepared in special cases, in order to meet the wishes of a School, or group of Schools, to consider an application for a special Examination at a time other than that fixed for a regular School Examination, provided the whole cost of such a special Examination is borne by the School or group of Schools.

Certificates in English.

Examinations for these Certificates can be held only in London.

(i) JUNIOR CERTIFICATE IN ENGLISH.

Any person will be admitted to take the English paper and a *Viva-Voce* Test at the Matriculation Examination, on payment of a Fee of £2 2s. for each entry, and subject to the General Regulations affecting that Examination.

A Certificate will be issued to each successful Candidate stating that he has submitted himself to an oral and written test in English and has shown an adequate knowledge of the subject.

(ii) SENIOR CERTIFICATE IN ENGLISH.

Any person who has not passed the Intermediate Examination in Arts will be admitted to take the English papers in the Intermediate Examination in Arts for External Students and a *Viva-Voce* Test, on payment of a Fee of £3 3s. and subject to the General Regulations relating to that Examination.

A Certificate will be issued to each successful Candidate stating that he has shown an adequate knowledge of the English Language, and of the period of English Literature and of the Texts prescribed for that Examination.

APPENDIX.

EXAMINATIONS IN THE PROVINCES.

N.R.—*The September Matriculation Examination is not held out of London.*

THESE EXAMINATIONS are appointed by the Senate from time to time upon the application of any Institution or College desiring to be named as a legal centre for one or more Examinations; they are carried on simultaneously with the Examinations in London, and are under the supervision of Sub-Examiners appointed by the Senate.

Candidates wishing to be examined at Provincial centres must give notice upon their Forms of Entry, when all necessary arrangements will be made by the University.

A Local Fee, varying in amount from £1 to £3, is payable to the authorities of the Provincial Centres by Candidates desiring to avoid the expenses of the accommodation thus provided. This Fee is in addition to the University Fee. The amount of the Local Fee and the time for its payment at the Local Centre will be announced on the Fine Table of the Examination on which every Candidate is supplied. The University Fee must be sent to the University with the Form of Entry; *the Local Fee must not be sent to the University, it must be paid at the Local Centre.*

The answers to the questions at the Provincial Examinations are reviewed by the Examiners at the same time as the answers of the Candidates examined in London; and a list of the Candidates who have passed at each Provincial Exam. station is published at the time fixed by the Regulation, at the place where such Examination has been held.

EXAMINATIONS IN THE PROVINCES.

On the entries being registered, those marked "Close Centre" are open only to the students of that particular institution. Other centres, except where otherwise indicated, are open without distinction to men or women candidates.

1921

The JANUARY MATRICULATION EXAMINATION will be held at—

- Birmingham.—The University; £1.
- Bristol.—The Merchant Venturers' Technical College; £1.5s.
- Brighton.—University College, Cathays Park; £1.5s.
- Brownsea.—University College of the South-West of England; £1.
- Cardiff.—The Royal Technical College; £1.1s.
- Harrogate.—United Method. Schoolroom, Station Parade; £1.5s.
- Huddersfield.—The Technical College; £1.
- Hull.—Technical College; £1.
- Liverpool.—To be arranged; £1.
- Lincoln.—Municipal Technical School; £1.5s.
- Manchester.—Owens College; £1.5s.
- Newcastle-on-Tyne.—Rutherford College; £1.1s.
- Nottingham.—University College; £1.1s.
- Plymouth.—The Technical School, Tavistock Road; £1.5s.
- Portsmouth.—The Municipal College; £1.5s.
- St. Andrews.—St. Leonard's School; £2.
- Southampton.—Highfield (University College); £1.1s.
- Sunderland.—The Technical College; £1.
- Swansea.—The Municipal Secondary Boys' School; £1.
- Town.—County School; £1.5s.
- Ushaw.—St. Cuthbert's College (Close Centre).
- Worcester.—Victoria Institute; £1.1s.

1920

The JANUARY MATRICULATION EXAMINATION will be held at—

- Birmingham.—The University; £1.
- Brighton.—The Municipal Secondary School; £1.
- Cardiff.—University College, Cathays Park; £1.5s.
- Exeter.—University College of the South-West of England; £1.5s.
- Glasgow.—The Royal Technical College; £1.1s.
- Harrogate.—United Method. Schoolroom, Station Parade; £1.5s.
- Hull.—Technical College; £1.
- Liverpool.—The Royal Institution; £1.
- Manchester.—Owens College; £1.5s.
- Newcastle-on-Tyne.—Rutherford College; £1.1s.
- Nottingham.—The High School; £1.1s.
- Plymouth.—The Technical School, Tavistock Road; £1.5s.
- Portsmouth.—Grammar School; £1.
- Sandwich.—Mather's Grammar School; £1.10s.

The JUNE MATRICULATION EXAMINATION will be held at—

- Cardiff.—University College, Cathays Park; £1.5s.
- Liverpool.—The Royal Institution; £1.
- Nottingham.—University College; £1.1s.

This Fee will be reduced if sufficient Candidates present themselves.

11 March 1925.

There are normally three Examinations leading up to a Degree.

The first is the Matriculation Examination, which is common to all Faculties. The standard of this may be defined as equivalent to the standard of a 'Pass with Credit' at any of the School Examinations recognised by the Board of Education, e.g., the Oxford School Certificate (formerly the Oxford Senior Local), the Cambridge School Certificate (formerly the Cambridge Senior Local) etc. These Examinations are designed for pupils of 16 plus who have been following a general course in a Secondary School of the type and standard approved by the Board of Education and to be found on their Grant List.

A copy of the Regulations is appended, and on page 5 of these Regulations will be found a list of the special optional languages which have been approved for Overseas candidates.

The second Examination is the Intermediate Examination. In the more usual Faculties, e.g., Arts and Science, this Examination is covered with relative ease by an average candidate in a Secondary School one year after passing the Matriculation Examination, being an easier Examination to pass than the Higher School Examination, which normally requires two years' work from a pupil of the same type.

It must be understood that this definition of standard applies to the Intermediate Examination in the more usual Faculties, e.g., Arts and Science, and does not apply to the more specialised forms of Intermediate in the less usual Faculties, e.g., Laws, Medicine, Engineering, etc.

The standard of the Pass Final Examination is more difficult to define. The course can normally be covered by an average student in a College where teaching of a University type is given, in two years after passing the Intermediate Examination. This Examination is generally not taken in Schools. The Honours Examinations are again of a widely different type, and, moreover, the difference in standard between the lowest third class Honours and the highest first class Honours is very great.

Examinations in the Colonies.

These are granted on the application of any Colony or Dominion through the appropriate channel at Home; i.e., the Agent General, or through the Colonial Office. Under no circumstances is any Examination held except upon the application of the Government of the territory concerned. Normally, any Examination conducted entirely by written papers can be held in a Dominion. Furthermore, an Examination involving a simple viva voce test can also be held in a Colony provided that the authorities on the spot can secure the services of a suitably qualified person to act as Assistant Examiner for the subject concerned. This would apply to such Examinations as aural test in the more usual modern languages at an Intermediate examination, or a R.A. Pass Final.

Practical Examinations in Science have been sanctioned in a number of cases in the Dominions. The essential conditions are availability on the spot of suitably equipped laboratories, and the availability of a sufficiently qualified scientific man. For example,

- 2 -

In Mauritius, practical examinations have been sanctioned in Physics and Chemistry, to be held in the laboratories of either the Agricultural College or the Royal College. A report on the laboratory accommodation from an independent person is always called for by the University before sanctioning the holding of practical examination overseas.

It is not usual to send out an Inspector from England for this purpose, as hitherto it has generally been found possible to obtain an adequate report from someone on the spot, or occasionally from some qualified member of the University who is visiting the district.

Special Syllabuses.

Special syllabuses have been approved in a few cases for Colonial Examinations, e.g., in Botany where the local flora differs widely, special syllabuses have been approved for Ceylon, Jamaica, etc.

Special languages are allowed to be taken by Oriental candidates in the Intermediate and Final Arts Examinations. Thus Ceylon is allowed to substitute an approved syllabus in Tamil or Sinhalese for the syllabuses in French or German, or correspondingly, Examinations in Sanskrit or Pali for Latin or Greek; similarly in Palestine, candidates may offer Classical Hebrew in place of Latin or Greek.

8th. March 1926.

My dear Major Vischer,

I have tried my hand at drafting a new paragraph 15 for the notes on Educational Policy in British Tropical Africa. I will bring up two copies with me to-morrow, but send you this one now in case you have time to look at it.

Yours sincerely,

M. E. Schlesinger

Educuation of Girls and Women in British Tropical Africa.

paragraph 13.

It is obvious that better education of native girls and women in Tropical Africa is urgently needed, but it is almost impossible to over-state the delicacy and difficulties of the problem. Much has already been done, some of it wise, some of it - as we now see - unwise. More should be done at once, but only those who are intimately acquainted with the needs of each Colony and experienced in using the power of Education, but also aware of the subtlety of its social reactions, can judge what it is wise to attempt in each of the different areas under review.

We are impressed by the fact that mere generalisations on the subject are not needed and may be misleading. Tropical Africa presents not one problem, but many, in regard to the education of its girls and women. Differences in breed and tribal tradition should guide the judgment of those who must decide what is prudent to attempt. Clever boys, for whom higher education is expedient, must be able to look forward to educated mates.

Again, side by side with the extension of Elementary Education for children, there should go enlargement of educational opportunities for adult women as well as for adult men. Otherwise there may be a breach between the generations, the children losing much that the older

traditions might have given them, and the representatives of the latter becoming estranged through their remoteness from the atmosphere of the new education. To leave the women of a community untouched by most of the manifold influences, which pour in through education, may have the effect either of breaking the natural ties between the generations or of inuring the old prejudices of the elder women. Education is a curse rather than a blessing if it makes women discontented or incompetent. The real difficulty lies in imparting any kind of education which has not a disintegrating and unsettling effect upon the people of the country.

It must also be remembered that in many tribes the women have great influence in the affairs of the community. Education should recognise this fact and endeavour to preserve the better kinds of feminine influence under the changed conditions of tribal life. It would be unfortunate if the tone of the new education should suggest to the girls and women that in the past they have been the victims of an inferiority complex.

Another point to be considered is whether the teachers of girls' and women should in all cases be women or whether there should be exceptions to their rule. There is no doubt that women teachers of a fine quality

of insight, and good sense are needed to strengthen what is good in the present efforts and to establish more widely a sound system.

Female education is not an isolated problem but is an integral part of the whole question and cannot be separated from other aspects of it.

BURNING STREET.

March 7th, 1945.

My dear Richard,

Thank you for your letter of March 5th.
I will bring it up at the next Meeting with other
documents received, and I am afraid you are bringing
up the time - the Bureau up before the Committee.
I have been busy with it lately, and have begun with
some action I would like to discuss with you.
This will be circulated to the members. My notes
on the March 1st meeting circulated at the same
time, will be available on the question.

Yours very truly,

John, too,
Lutgern House,
Boston date.

DOWNING STREET.

March 7th, 1928.

My dear Oldham,

Thank you for your letter of March 5th.
I will bring it up at the next Meeting with other
documents received, and I am glad you are bringing
the letter of the Bureau up before the Committee.
I have been busy with it lately, and have begun with
a Memo which I should like to discuss with you.
This could be circulated to the Members. My Memo
on the Yerresquier could be circulated at the same
time, as it bears much on the same question.

Yours very sincerely,

J.S. Oldham, Esq.,
151 TUNBRIDGE HOUSE,
Lenton Gate.

Major Hanns Vischer,
Colonial Office,
S.W. 1.

My dear Vischer,

I should like to ask the Advisory Committee at its next meeting to put on its agenda for the following meeting the question of the establishment of an international Bureau of African Languages and Literature. The matter is one in which the missionary societies are keenly interested, and in view of certain possibilities of assistance from America, it is desirable that the question should be considered without undue delay.

The Committee has already agreed, at its sixth meeting, to consider the question of the place of the vernacular in education.

I am,

Yours very sincerely,

W. R. Oates

LITTLE PARKHURST.

ABINGER COMMON,

WT BOROUGH,

SURREY.

Dear Fisher,

I will call at the Co. tomorrow
about 3:45 p.m. if you are abroad
with a start at 3. I am bringing the
news with me. If you can not be there
telephone to Colman's Bank at lunch
time.

Very truly yours

W. May and

DOWNING STREET.

March 4th, 1925.

sir,

I am directed by Mr. Gresley-Gore to inform you that he and the Members of the voluntary Committee on Native Education in Tropical Africa, would greatly appreciate your presence at their next meeting which will be held in the Conference Room in the Colonial Office on Tuesday, March 10th, at 11 a.m., in order that they might have the benefit of your views regarding certain proposals received from the Governor of the Gold Coast in connection with the Government College at Accra.

With the honour to be,

Your obedient servant,

LONDON.

March 3rd, 1925.

Dear Sir Frederick,

Before long the Committee will have to consider the question of African Girls' Education. I have already been asked, indirectly, by the Director of Education in Tanganyika Territory for advice and the Director of Education in Northern Nigeria states in his annual report for 1923 (it has been circulated) that he is looking to the Committee for advice in this matter. During our discussion on Girls' Education at the last Meeting, in reference to Achimota, the Committee expressed the view that girls' should be instructed by women teachers. I feel very strongly, and I rather think you agree, that the whole problem can better be studied by women than by men, and that ultimately we will have to turn to women in this country for their advice.

ADVISORY COMMITTEE ON NATIVE EDUCATIONIN TROPICAL AFRICA.AGENDA for the 12th Meeting.

(to replace the Agenda circulated on the
25th February.)

1. Minutes of the 11th Meeting.
2. Notice of documents, etc., received by the Secretary.
3. London Degree for Achimota.
4. Memorandum on General Education Policy.

Mr. G.F. Goodchild, External Registrar, London University, has been invited and has kindly promised to be present at the Meeting in order to enable the Committee to ascertain the attitude of London University to the proposal made by Mr. Fraser and discussed at the last Meeting.

N O T E S.

1. Sir Michael Sadler thinks that it is essential that Mr. Dellor should meet the Committee at the next Meeting, or, failing this, that certain members of the Committee should see him and ascertain his views.
2. Re Achimota and London Degrees. If London cannot help in this matter, Sir Michael Sadler proposes that application might be made to Oxford to act as she does in the case of Exeter and Southampton. (See Statuta Universitatis Oxoniensis - Miscellaneous - Page 647.)
3. Sir Michael Sadler proposes using religious clause affecting Higher Education and ignoring question of undenomination of Education Act, 1921 (11 & 12 Geo. 5), (Ch. 54.), Page 44, Para. 72, sub-para. 3:-
 "No catechism or formulary distinctive of any particular religious denomination shall be taught in a school, college, or hostel provided by the council, except in cases where the council, at the request of parents of scholars, at such times and under such conditions as the council think desirable, allow any religious instruction to be given in the school, college or hostel, otherwise than at the cost of the council; (but in the exercise of this power no unfair preference shall be shown to any religious denomination.)"

Sir Michael Sadler advocated the quarterly

LONDON.

February 28th, 1928.

Dear Bishop Bidwell,

I am very sorry that you could not attend our meeting yesterday. It was decided to hold the next meeting on March 10th (11 a.m.) and that we should then discuss the final draft of the memorandum on Education. I suggest it is advisable to have all the comments members have to make before arriving the copy which will come up for discussion at the next meeting. Yours very truly, therefore, kindly send me yours as soon as possible.

It was also proposed at the meeting that a signer be given by the committee to Dr. Jesse Jones to show the appreciation of the Secretary of State for the work done by the American Commission and that representatives sent in Fox, Union and African interests, Press, etc., should be

invited. The date provisionally fixed is
March 1st. At this dinner the general views
of the Committee on Education Policy, a group
in the Chamber to be discussed at the next
meeting, will be stated. Mr. Dymby-Gore,

the Member for C. Camb., suggests it's
better to have the meeting on March 1st.
I am sorry.

LONDON.

February 25th, 1926.

Dear Sir Michael,

Since I saw you I have been informed
that Lugard requires all the comments on the
Memorandum not later than the end of this week.
He will then write out a final draft which I must
have in time to have it duplicated and circulated
before we discuss the Memo at our next meeting on
March 10th.

Thus it will be too late if I come to see
you with my secretary on Tuesday or Wednesday.
I don't think it would take us more than an hour
should I be given ten to come over say any day this week
whenever it suits you best, and in the time that
you can spare fully occupy the usual office

LONDON.

February 25th, 1925.

Office)

now, I am take down your addresses.

so what time I will ring you up to-
morrow about 11 a.m.

Yours sincerely,

My Lord Bishop,

I am directed to inform you that it was decided at yesterday's Meeting of the Advisory Committee on Native Education in Tropical Africa, that the next Meeting be held at this Office on Tuesday, March 10th, at 11 a.m. and that the Committee should then discuss the final draft of the Memorandum on Education Policy. It was also decided that a dinner be given by the Committee on March 6th to Dr. Jason Jones.

The usual notices and any further information will be forwarded to you in due course.

I have the honor to be

my Lord

Your obedient servant,

Rev. A. A. David.

LONDON.

February 25th, 1925.

Dear Sir Frederick,

Regarding the decisions taken in yesterday's Meeting:

Memorandum on Educational Policy - the revised copy has been circulated, as you know, but so far I have received no comments from any Members. Sir James Currie showed me a few remarks that he had made on his copy. I am now writing to each Member asking them to send me their copy with any edits or suggestion they wish to make, and I will forward you these as soon as I receive them.

Your Additional Memorandum on Religious Instruction - this has been returned to me with notes from the Bishop of Liverpool on Sir Michael Sadler. I am either seeing the other Members or writing to them in order to know their views and send them on to

19/1
SIR,
I hope to be able to send you this week
if not earlier, a draft from the members of
the Committee.

A letter from Mr. MacLennan tells me
that he intends to re-draft the Memorandum for
circulation at the next meeting to be held on
Wednesday. Will you be of any assistance
in this? Please let me know if you will not me
know in time so I can tell you.

Very - regards a proposal - copy of the
Memorandum for the Secretary of State to the
Committee will be circulated by members of the
Committee.

The first section will be given priority
to the discussion on the Memorandum on
Education.

Yours sincerely,

LONDON.

February 26th, 1925.

Dear Major Church,

Sir F.D. Lugard is re-writing his memo
on Education Policy so that I can circulate it
before the next Meeting (6th March, 1925) when
the final draft will be discussed. Will you
please send me your copy with your notes as soon
as possible so that I can give it to Sir F.D.
Lugard.

Yours sincerely,

Major A.G. Church, M.S.I.,
M.C.

The Secretary presents his compliments
to [redacted]
and begs to inform him
that the next meeting of the Advisory Committee
on Native Education in Tropical Africa will be held
at the Colonial Office on Tuesday, March 10th
at 11 a.m.

Kindly call members
heads of Dept.
Dr Donald Canaris
Mr A. W. Somer

NEWING STREET,
