TRANSPORT DEVELOPMENT. RAILWAY CONSTRUCTION.

Extensions of Uganda Railway will commence 1st January. All parties will be submitted when survey completed. The first extension should be completed in 12 months. The line extends mainly on labour and suggests calling for more for small contract locally; hope complete by end 1924. Final survey completed shortly. Kileleshwa and Kavirondo Branch dealt with later.

MINUTES

It appears from this that the programme will be roughly as follows:

- (1) Thika - Kericho (100 miles) *July 1924*
- (2) Kericho - Njiru (48 miles) *January 1925*
- (3) Kericho - Inyanga (110.0 miles) *in 1925*
- (4) Kericho - Lili (25 miles) *2 1926*
- (5) Kileleshwa and Kavirondo branches *1925*

In addition relaying of the main line will be going on at least from January 1924.

(1) (2) & (4) are under the supervision of the Engineer, and there will be a certain amount of criticism at the

... relaying must be first, but when they are

to have all 50 lb. rails taken
up from the main line & that
give some ground for going
with them conveniently with
relaying the main line. Hence
the detail line is very necessary
to give the ex. rollers with
a chance to make good.

I think in the near future
that the detail line (4.5 miles)
should be controlled by local
committees under the supervision
of the general manager.

1. To have immediate effect
also for a copy of the
Order regarding, but have
not considered that copying
should be considered with
the other railway, as usual.
Therefore I am so definitely
in the former's case that
to be agreed content, with
to be agreed content
with the Taka-Tana
the same, as a matter

This is better better than
outside contained in 520
suggested in the draft of
13 Feb. or 3953 that, if not
contained independently (is
by local control under direct
control control) it is better
control might be obtained on
control for some other kind of
the work (which has not been
done) or even to the main
given by control staff.
The local authorities, do not take
up the point and a view of
the simplicity of the work &
to all blame them

has proposed

Telegram from the Governor of Kenya to the Secretary of State for the Colonies.

21085
3 MAY 24

Dated 2nd May.

(Received Colonial Office 6.7.48 am. 2nd May, 1948)

No. 137 2nd May Your telegram 28th April Arrangements will be made to commence consideration Uganda line on 1st January on method outlined in course (a) Orders for material will be arranged accordingly. As far as can be seen now there will be no engineering difficulties. As soon as the survey completed full particulars and estimate will be submitted for examination by the Consulting Engineers before the end of August.

Regarding branch lines Thika Tana river extension is already under construction by Route (a) and provided no serious labour difficulties are encountered the line should be completed 18 months from now on the Nairobi line as on the Tana river line second hand material ~~obtained~~ from the main line will be used and river expenditure ~~of~~ £50,000 will be mainly labour-like therefore highly suitable for small contract placed locally after calling low tenders. No need for any intermediate progress commence this line January and complete by the end of 1950 to be in time 1951 1950 season ~~1951~~. Detail survey will be sent shortly and Shaba and Kavirondo branch can be dealt with later. Copies of your telegram and my reply have been sent to Uganda.
