Dear Sirs

This is with reference to my letter
and Aff. of 21st June 1924, dear Sirs, last letter to you
with the information concerning the developing whale fishery
having the same been obtained from the
fishing stations of the British Fisheries Commission. As
the fish, I was informed, were being taken from the
provinces of Mombasa and Lamu, I have been
engaged in this country.

Capital and equipment were
united in April 1923 by Mr. J. G. L. Smith,
Managing Director of Mafinga and Co., Ltd., a company
of his Company also extending to the
African coast, fitting up a small building
factory at Mombasa, where all waste products
waste products will be treated.

He presented the plan to the
Directors, and I then met him and explained the
of the Company. He definitely said to me
that the Company might say well and good if the
local Government would guarantee him
of maintaining a trailer vessel for the
year. The total cost of this vessel was £1,000
for a year at £6,000 per annum, and he

contribution of our half of this sum should not fall on our
Colony, but should be shared among Kenya, Tanganyika Territory
and Zanzibar.

Since then I have heard no more and I
believe that Major Eustace was fully aware of the position
and intended to further explore the possibility of
collaboration between the various Governments. If I can
assist in any direction I shall be glad to do so.

I have the honour to be,

Sir,

Your obedient servant,

C. W. Hobley
Commissioner for Kenya Court.
