SIR,
The Hon. Colonial Secretary,
Colony & Protectorate of Somaliland.

1926. Jan.

I note that the Secretary of State considers that the present is not a suitable time for an additional investigation and that he proposes to defer for the present further consideration of any fundamental alteration in the Pension system or any extensive changes in the present pension scheme. I regret that this decision should have been arrived at, but most strongly urge that until some form of Governmental Fund is established in lieu of the present President Fund, the Secretary of State be requested to reconsider the further decisions contained in the despatch under reference, both with regard to present members and future pensions.

In earlier parts 200 of the Code of Regulations temporary service within the Colony, if continuous and followed by permanent service in a similar capacity, under another Colony may be allowed to count towards pension. An application to this general regulation is now to be made in the case of railway servants in view of the fact that they have under the old railway administration salary, on the assumption, presumably, that the benefits of the President Fund affect the temporary component thereof.

I note that the Secretary of State considers that the present is not a suitable time for an additional investigation and that he proposes to defer it to the present further consideration of any fundamental alteration in the Pension system or any extensive change in the President's pension. I regret that this decision should have been arrived at, but most sincerely urge that until some form of Supplementary Fund is established in lieu of the present President Fund, the Secretary of State be requested to re-consider the further discussion entered in the despatch under reference, both with regard to present interests and future requirements.

Under para 222 of the Code of Regulations
temporary service under the Colony, if continuous and
referred to permanent service in a similar capacity,
under another Colony may be allowed to count towards
present. An exception to this general regulation is
now to be made in the case of military servants in view
of the fact that they serve under the command
of the Adjutant General, on the assumption, presumably,
that the benefits of the President's Fund affect the
temporary compensation.

4. MILLBANK,

WESTMINSTER.

LONDON, S.W.1.

29th July 1924

Mr. Balfour

Dear Sirs or Madam,

we are awaiting your proposal's
proposal or the 1st of July last, so far as from that
date we have received no proposal which have been com-
municated to us. On the 2nd of July, we
communicated to you from the Board of Trade -
the Board of Trade's proposal of the amalgamation of the
Bank of India and the Bank of Bengal and the
Bank of Rangoon. We have also sent a copy of the
same to you. I have no objection to this proposal, as, if the Com-
monwealth money (on account of the loan) for 10 months
at 4% per cent, and if it is claimed sum £10,000 or £10,
000 more, will be set aside for the service of the
Bank of India. We trust that it will be preferable
to the Bank of India to have its money employed here.

On the 22nd of May
I sent you £250, or
one Bank note, at
my usual account as

been willing to credit
your account £250, or

Mr. Roy, of the Indian Committee, called on the 23rd. He had three points.

(1) He is proposing that Sir B. Robertson should go to East Africa on a purely personal visit in the hope that he can do something to improve the situation. He suggests that the East African Government should take advantage of his visit to consult with him instead of or as well as with India. Many questions arise which may arise out of the terms of reference (e.g., economic development of the

country). I said that it must depend on Mr. Robertson's discretion as to what he would like to do, but I pointed out to decide with whom they should meet. I said that I could easily see him not being willing to do so, as he was very anxious in putting forward his proposal to have the Indian Government accept it. Sir B. Robertson was willing to do so (but I think very reluctantly).

(2) His view of the immigration question is that we can avoid all necessity for legislation (with the risk of counter-legislation in India) if we control immigration by agreement with the Government of India. No Indian can leave India without a passport.

I said that they would go to (e.g.) Zanzibar and come on to Kenya. He saw no danger in this but I think that, if Kenya made extensibly nothing the door open to Indians, turned out an Indian simply because his passport did not carry him beyond Zanzibar, there would be trouble.

Also I think - though I did not tell Mr. Roy so - that it would be useless to rely on even the present Indian Government (and its capacity for yielding to political pressure will not diminish in

Whenever you are satisfied that such an immigration
will be influx of immigrants - or - will be due to
character, or nationality, causing local trouble
the economic interests of the country will require
a decision upon the question of immigration.

It is the duty of the government to see that
such a decision is made in accordance
with the principles of justice, and that the discussion is
conducted in a spirit of frankness, and in a retaliatory
spirit, or in a spirit of suspicion.

whether you are satisfied that these men anticipated such an influx of immigrants - whether they had, character, or nationality, during their stay in the country, and whether they have been compelled to do so.

It is also requested that you furnish us with numbers and names of all persons who have been in pressing need of subsistence in this country, and in what manner it has been relieved.

I will take the subject in the order raised by the Committee.

(1) Immigration: My position is that if the danger over arises of such an influx of immigrants of whatever class, race, nationality or character as may be likely to be prejudicial to the economic interests of the natives, I hold myself entirely free to take any action which may be necessary. The conflicting statistics which have been laid before me have not enabled me to reach a definite conclusion as to the extent of the net Indian immigration. Accordingly steps will be taken to create a Statistical Department to obtain accurate information with regard to persons of all races arriving in or departing from Kenya. Meanwhile the Kenya Immigration Ordinance will not be enacted.

(2) Franchise: I have given careful consideration to the representations in favour of a common roll but I am not prepared to resist the conclusion arrived at in Cmd. 1022 of July 1923 that in the special circumstances of Kenya with four diverse communities each of which will ultimately require electoral representation the communal system is the best way to ensure the fair representation of each and all of these communities;

(3) Highlands: I consider that the Secretary of State for the Colonies has no alternative but to continue the pledges expressed or implied which have been given in the past and I can hold out no hope of the policy in regard to agricultural land in the highlands being reconsidered.

(4) Lowlands: It was proposed to reserve
