July, 1924

Dear Aggrey,

As promised I am sending you a copy of the plan on which I propose to write the reports dealing with the various countries we have visited. As you will see from it your observations on the native point of view will appear as an appendix to my report over your name. I propose to send you an advance copy on each colony as and when completed. The whole report will be submitted by me to the Under Secretary of State and will pass to the Advisory Committee on Education in Tropical Africa. A copy will also go to Dr. Jones and with it all the books, documents and reports collected in Africa in the course of our travel.

Yours sincerely,
