Mr. Scott -

When the Committee start

they will at once want to know the existing state of the law in each of the colonies or will they have to deal,

beginning with West Africa.

There are 8 members, & they will want copies of the laws. I suggest - not to mention a

spare copy for the Secretary.

I think you ought to do what we can & supply you right off if at all. We can't supply from the library - probably not enough

copies - & then write to all the Colonies concerned (ref. dep. on H.A.C.) & ask

for ... copies of the laws & regns in force

affecting the ownership & transfer of land, to be

sent to you as soon as possible for

the use of the Committee. (and we might add "and any other printed papers which might be useful to

We ought to be beforehand with this.

African Land Committee.

It has been pointed out that the recently constituted African Land Committee might possibly be embarrassed in their consideration of the matters included in their terms of reference if any of the West or East African Governments concerned should pass legislation affecting the transfer of rights over land, or take any measures affecting land (e.g. in connection with native reserves, concessions, etc.) which might possibly conflict with the recommendations which they will eventually make, or which might, without their knowledge, modify the existing situation of land questions in the dependencies concerned.

This difficulty will, I suggest, be met if, (while the Committee is in being,) the Departments concerned would make a careful note of the point, and (should any such action be reported to be in contemplation, or to have been actually taken in any of the Dependencies) if the Departments concerned will consider whether it is necessary that steps should be taken to suspend local action, and whether the matter should be referred to the Committee.

*a.* August 7th, 1924.

*at a West African Dept. base - and the former*

Should also bear in mind the  
possibility of a similar difficult arises  
on the S. Africa Committee. The Secretary  
should pay special attention to this point.
