Dear Bottomley,

The United States Embassy tell me that a Mr. Sand who is connected with the Hampton Institute for negroes (Virginia) is anxious to see someone in the Colonial Office with regard to a project that two or three negroes who have been trained at the Institute should return to East and West Africa for the purpose of performing what he describes as social service. I said I would refer the matter to your Department. Would you be so kind as to let me know what to reply?

Yours sincerely,

Lawson
