OPINION OF THE MEDICAL BOARD.

NOTES.—(1) Clear and definite answers are to be filled in by the Board, as, in the event of a man suffering from a disability, it is essential that the Minister of Pensions should be in possession of full and accurate information to enable him to decide upon the man's claim to pension.

486

Expressions such as "may," "might," "probably," etc., are to be avoided.

(2) The rates of pension vary according to whether the disability is (a) caused or aggravated by service in The Great War; (b) due to causes not connected with The Great War, viz., (1) Previous active service; (2) Venereal diseases in pre-war service; (3) Ordinary military service before The Great War. It is, therefore, essential when assigning the cause of a disability to discriminate between these several conditions.

22. Give diagnosis and particulars of—

- (a) Any disability claimed or discovered.
- (b) The present condition thereof giving—
- (i) Symptoms and physical signs.
- (ii) Effect of the disability on function.

Are the effects of such "aggravation" likely to be (a) temporary, or (b) permanent?
