 I'd have any papers about this case.
 They tell me, after all of two minutes,
 that all the information they have
 about him is that he applied to them
 for help but that he was not
 in touch with the Bureau. They
 have no information about his to R. since

I beg to lay my case before you with the hopes of receiving justice as I feel I have been done a great wrong by a chosen colony. So much so that I have been practically compelled to resign my appointment.

To introduce my self I am an Ex Employee of the Uganda Railway, British East Africa, serving alone faithfully for the best part of 8 years continual service.

My guarantee is this I signed an agreement with the Uganda Railway (copy enclosed) as an assistant fuel inspector being designated as an best foreman on the Establishment. I was again recruited to carriage builder through no fault of mine. I attach

PUBLIC RECORD OFFICE, LONDON

here with a copy of the certificate issued
 by the Chief Mechanical Engineer showing
 that my conduct, character & abilities
 have been all that could be desired.
 My point is this Sir, that an agreement
 is an agreement. If on the other hand,
 misbehaved my self according to the
 agreement I was liable to instant
 dismissal forfeiting all rights.
 Again in spite of the recommendations
 from my immediate superiors for an
 advance in salary, an increment of
 Rupees 3 per month was granted by
 the General Manager. Considering the
 services rendered, I feel this is a
 gross insult. I will go further by
 saying that the above sum is the
 smallest by way of an increment
 received by any European in any
 branch of the local service in P. & A.
 To prove my statements I beg to ask
 that my personal file be sent you
 from the Legation Railways.
 In conclusion I beg to say Sir, that
 I am not asking for vengeance, all I

Went is fair use I am out of Employment
at present & am seeking a post in one
of the colonies.

I would be more than
thankful if an interview could be granted
Thanking you in anticipation

I am
