The Director of Education referred a report of
a committee entrusted with development and
control of educational institutions of the State to
the Board of Education, and would be glad to receive
and several suggestions. The Board of Education
charge of the State and 2000-2700
and at first and more later as

W. Botwin

We have not the report of the Commission
but I do not yet know the
idea of the Board.

Provisionally, we have revised
islands in assumption that
the Director of Education is
retained in the Dept.

We can wait for the report
of the Commission.
We will also have note of
this when I may reply and
to the Board of Education.
