Reply that it will be found to be of great value in charcoal production locally, as the Mombasa forest is a large one. Before any thing is done I should like to see a report on the value of the forest on the other hand to be secured.

SIR,

As I shall be sailing for South Africa within the next few weeks
I can go from there to Kenya Colony, Sir Herbert Read may prefer that
I should make personal application, in the Colony, for the right to
produce charcoal in the Mombassa Forest. In that case he may prefer
to have a letter conveying my proposals in respect of that Forest.
I have to await the decisions to be taken by the Board of the Territory
before I can make any proposals.
I am, Sir, very truly,
Yours faithfully,
C. H. Pritchard.

Should Sir Herbert or you desire to see me before I sail, I shall be
glad to keep any appointment that may be made.
I think that, if I can see to it that the Mombassa Forest, I should
be conveniently situated if Sir Herbert and I visit Tanganyika Territory
officials investigating the possibility of establishing a Powellizing Plant
in that Territory. Such a visit to the officials concerned and
to the Mombassa Forest and I am naturally prepared to assist in
any possible way.

I am, Dear Sir,

Yours faithfully,

C. H. Pritchard

Sir,

I am in touch the text of your letter of the 8th of Nov.

It is a pleasure for me that it will be possible to produce as you suggest, ~~the matter for you to make~~

personal application in the case for the right to produce charcoal in the Beconham Forest, as you suggest, as it would be necessary

to request the Forestry Commission to consider the matter

and to request the Forestry Commission to consider the matter

and to request the Forestry Commission to consider the matter

I am, Sir, very truly yours,
G. H. Pritchard
