I am sorry that 38109 was overlooked. It is not I think the fault of SR. It was, I believe, communicated to Director, but it got mixed in the financial portfolio. *From report says it is not the same as the one which was overlooked.*

I have attached a note as to various outstanding items.

I agree Mr. Buckle and I  
 exhausted all possible possibilities  
 of the administration perhaps before  
 giving it up.

I agree that in this case

As to the 1st Grade Administrative Officers, I think, after such comparison of the various tables, that the explanation is <sup>that to the 40,</sup> that to the 40, provided for in the original estimate, must be added 5 for additional districts now considered to require a 1st Grade Officer (giving 45 provided in the Estimate) plus 6 for Secretariat and C.N.O.'s Department (giving 51 given in the Schedule 30794/31); but this won't really work because, while in the draft estimates provision is made for three 1st Grade Officers in the Secretariat, no provision <sup>is made,</sup> so far as I can discover, for the 1st Grade Officers in the Native Affairs Department. It is really impossible to make head or tail of the matter.

As regards the 2nd Grade Administrative Officers the Governor tells us that he is satisfied that the adjustments laid down for the staff of the 2nd Grade are the minimum compatible with native requirements, and he trusts that his dispositions will receive the Secretary of State's covering approval, but he does not attempt to reconcile the 85 provided in the Estimate with the 86 provided in the Schedule in 30794/31, nor does he tell us which is correct.

One thing emerges quite clearly, and that is the Governor proposes on this year's estimates a very considerable increase in the approved establishment of the Provincial Administration without one word of explanation to the Secretary of State. We must, I think telegraph to the Governor that we find it very
