**SHIPPING FREIGHTS. RATES.**

States reduction of 20% applies only to months  
and goods mentioned. No comparison is possible  
as to trade from Bombay and South Africa and tra-  
de in E.Africa. Present depressed condition of trade  
has to large extent been accentuated by currency  
difficulty. Lines are as hazardous as Govt. for the  
prosperity of possessions and in sustaining  
revenue services at loss have given practical  
warning.

London, S.C. 18th June, 1921. 191

The Under Secretary of State,

COLONIAL OFFICE.

S.Y. 1.

Sir,

In further reference to your letter of 8th inst. 2/226/1921 relative to rates of freight from East Africa I am instructed by the British Steamship Lines trading from East Africa to say that the reduction of 20% to which you refer applies during May, June and July of this year, not in August as stated. This reduction applies to the following goods viz:- Coffees, Sisal, Sisal Tow, Sansevieria Fibre, PINK, PIAX Tow, Cotton, Maize Meal, Castor Seed, Sunflower Seeds, Ground Nut, Jute and Sisal. As the tariff rate for Sisal and Pink is now 60/- per ton, the reduction of 20% above referred to brings the reduced charge considerably below the rate suggested by you.

These reductions have been agreed despite the fact that the position of the steamer services from this country to East Africa is just as critical and perhaps more so than the affairs of Planters and Producers, and the lines are unable to bind themselves to extend the low rates to which they have agreed beyond the period of three months. There is very little carry out, and the homeward trade has entailed such serious losses on the lines that the lines have already had to make reductions in the frequency of their services and they may be compelled still further to reduce the facilities offered by them.

The conditions affecting the trade from Bombay and from South Africa are so different from those obtaining in the

East African Trade that no useful comparison of the rates of freight is possible.

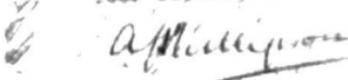

From the views expressed by East African Traders the Lines are of opinion that the present depressed condition of trade in that part of the world has to a large extent been accentuated by the currency difficulty.

I am to add that the Lines are as desirous as the Government for the prosperity of the British East African possessions with which their interests are so closely identified, and in sustaining the recent services at such serious loss they have given practical evidence of their interest in the Trade.

I am,

Sir,

Your obedient servant,

  
A. Miller

Secretary: East African Steam Conference.
