I am afraid I do not

Mr. B. I have you minute you should be the latest minute on the 20th file 3476 E.A.

we have not decided from the 10th as to any shows that if he is left to be compensated as a condition of getting a definite allocation yet that already proposed is purely provisional. I shall have to discuss this with the relevant departments.

It is little use getting anything further from Mr. Toffe he could not

move without something from the Governor whatever Mr. Toffe may say. I suggest that we might tel. briefly to the Gov. explaining the situation and asking whether he is recommending that Mr. Gibson should not be referred.

Mr. B. reply

With regard to Mr. Batterbee's minute I entirely agree with "A". "B" is perhaps put a little strongly but in view of the general slump in forestry vacancies under the Forestry Commission at home and in all our services, students at the Universities are likely to be seriously discouraged in taking up ^A studying forestry in future. I do not much like
 the idea of visiting Uganda
 to make up my mind whether
 to get rid of a man because
 we have a man we want to
 get rid of when they
 would get rid of the
 Gambia (Agnes Sept.)
 We took the line that he
 was the best material
 available at the time of
 his selection, of the
 same views, & staff to
 the Gambia.

And I think we have
 no other but to let
 him go as he has been
 very good to us in
 the Gambia: recommended
 but they must give
