ADMINISTRATIVE STAFF. VACANCIES.

Three cadets required in September and should be sent out without undergoing course of instruction. Two more cadets required in October. No objection to re-appointment of Lowder and of Mumford, on conditions stated, but opposes re-engagement of Le Chene on grounds of unsuitability.

MINUTES

As already asked in our ltr. a 28846/23 to be informed precisely how the number of vacancies was arrived at. I have tried to work it out, since Kenya have not counteracted the info, but our latest staff list is 8 months old & they are always moving officers about. I think we must accept the view that there are 3 vacancies & trust that the dep. will clear the matter up. As regards the 2 further vacancies referred to we had better wait

 new appts. except that  
 continuity of service will  
 not be prejudiced.

I put up a

No. 216.

With regard to the cases of 10th July No. 206 & 207  
will be required in September and 2 more in October. I  
should be glad if the former could be sent out as soon as  
possible without undertaking course of instruction. No  
objection to reappointment of Lowder and of Mumford also  
on probationary basis provided that latter intends to  
adopt native administration as his permanent profession.  
Regret that I must oppose re-engagement of Le Chene who  
proved himself unsuitable for such an appointment. Despatch  
follows.
