This image shows a severely overexposed and faded document, likely a ledger or account book. The text is mostly illegible due to the high contrast and fading. However, some words and numbers can be discerned through careful examination. At the top, there are several horizontal rows of text, some of which begin with 'Debit' and 'Credit'. In the middle section, the word 'Total' is visible. The bottom portion of the document contains a list of names or entries, with some words appearing in multiple lines. The overall appearance is that of an old, well-used record book.

Dated 7th Dec<sup>t</sup> 1923.

Received in the Colonial Office at 4.55 p.m. 8 Dec

To the end of the line.  
7th Dec<sup>t</sup> I sincerely hope you  
can appreciate the late Mr. Strong's  
opinion that Roogan cannot  
substantiate his claim to telephone  
rights except over one 53 acre plot  
as no formal documents had been  
submitted to the Government  
required by Law. So far from  
that which apparently you do  
not sign. He despatched the following  
on this question. O

Your telegram of 20  
November, your telegram of

not had time to go over it in detail  
but I think you will find it of interest.  
I have enclosed a copy of the letter from the  
Company for your kind consideration. In view of the  
fact that the Company has now been engaged in the work of  
reconstruction of the port of Calcutta, it would be well if the  
Government would take steps to have the  
Company's services available for the reconstruction of the  
port of Madras. I may further  
say that all arrangements we have made  
with him over  
the last few years have been satisfactory  
and he has always wanted to be  
part of the  
Government and would be willing to do so  
if his  
detainment in India for 162 days  
(or 180) can be considered equally  
unjustified. The  
Government should  
therefore consider the sea frontier, especially in  
the course explained to me in the  
introduction of the  
Bill.

Yours truly  
Gouvernor

Dear Sir,

Precious.

after the recent visit to the

Office telegrams were sent to

the Governor of Kenya asking

him to despatch a force

and to the Country at

some assurance that the outcome

negotiations would be definitely accepted

by the Secretary of State, and in

there appeared to be no prospect of

agreement being reached.

4. It was not possible to give Major

Gregson this assurance; but he was informed

that there is no doubt as to the importance

which you and your advisers attach to the

question of obtaining Government control

of the working of Mbaraki Harbour.

5. Some difficulty has arisen in

dealing with the matter owing to the fact

that your telegram of the 7th of December

was marked "strictly confidential". It

was in fact, found necessary, in discussing

the matter with Major Gregson, to inform

him that your advisers had not been able

to accept the view that his rights to the

part of the foreshore not excluded

in the original lease of 50 acres must be

acknowledged, and that the British

responsibility for the rights which

he had exercised must be recognized.

I don't. The French  
did not exist when  
he was on the River  
I am bound to  
contribute.

Mr. Justice may have stopped  
upon different aspects  
of the old claim is not

he would not get another  
the provident fund with a view  
of interest.

I think we can agree with  
the Govt. in paragraph 6

J.H.

18-1-04

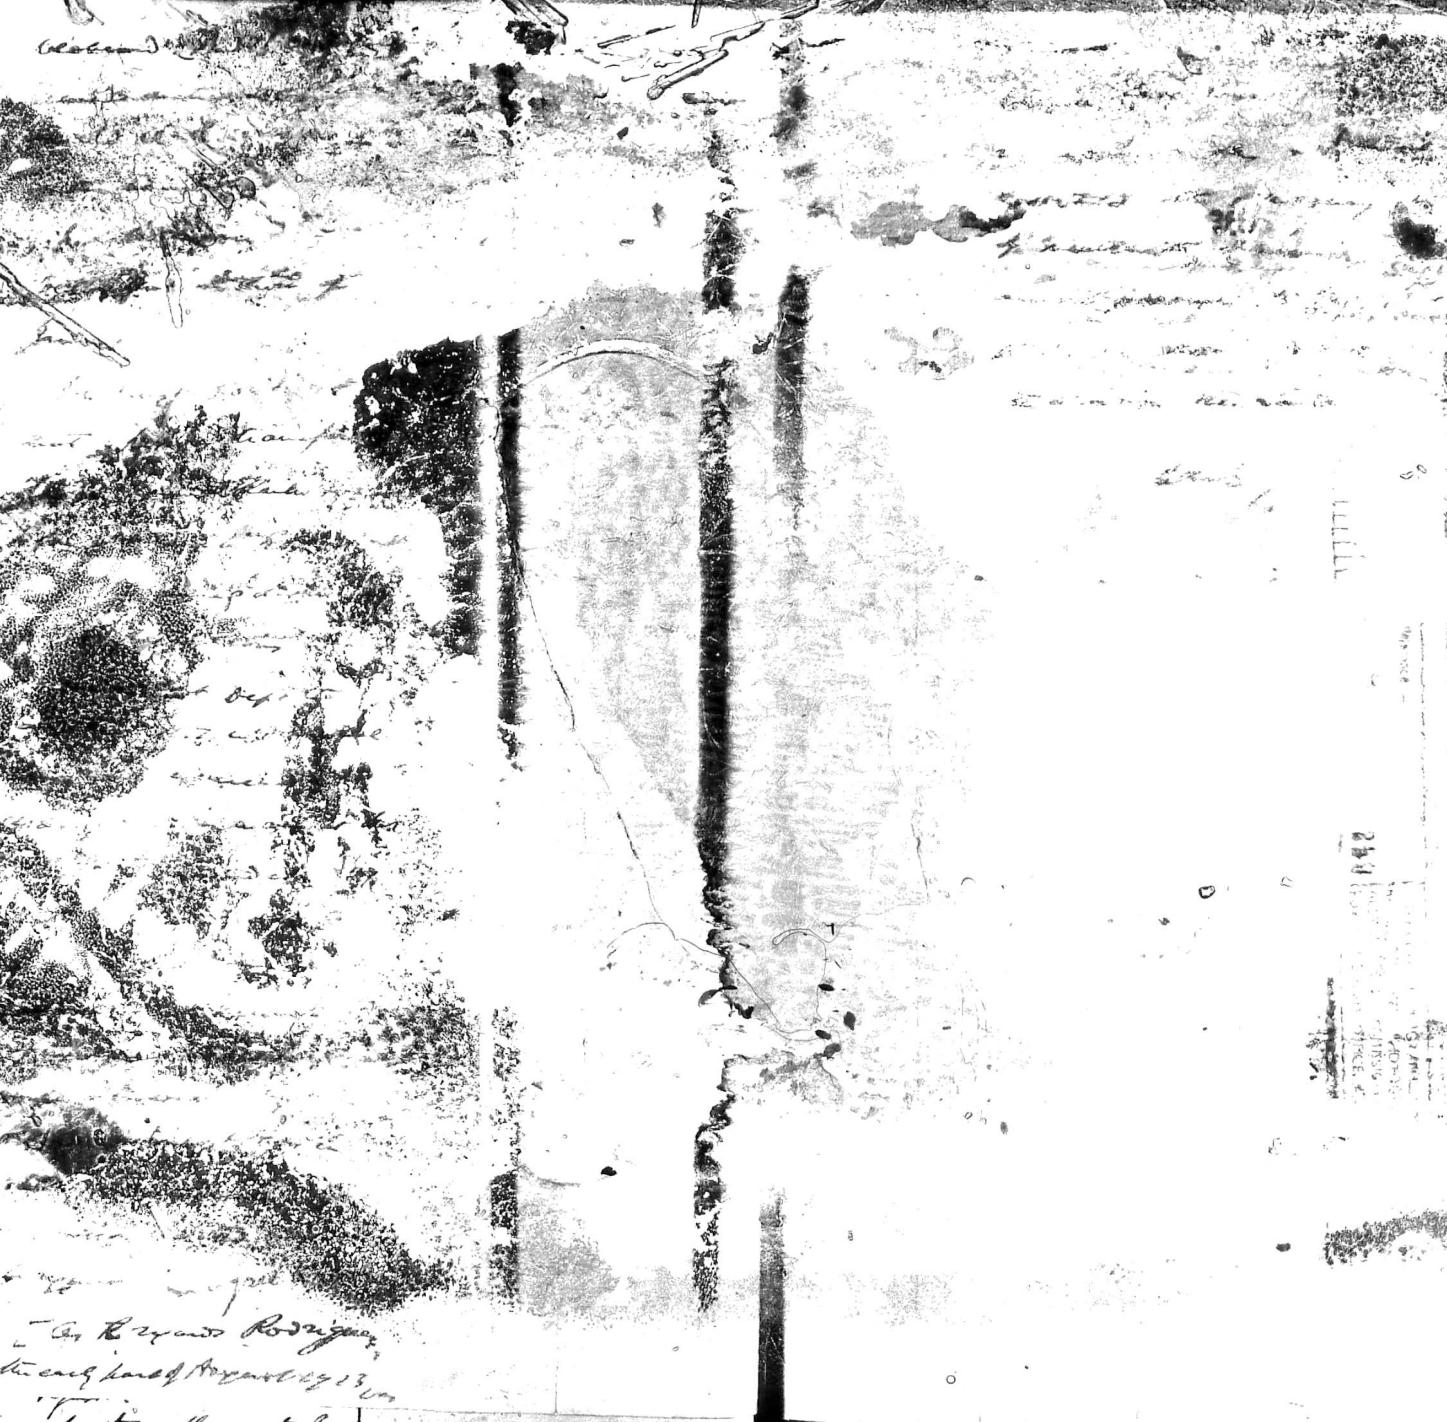

On 27349/16 & 1746<sup>16</sup>/7 we  
were considering the old  
question of his position as to  
continuity of service of men who  
had been away from the Army  
during the last 3 A.P. days.  
a question which was  
easily disposed of at first

to be considered  
on the same

from other point of view

Mr. Sir Ba L. 22-1-04  
which can form part of the  
principle law.

I admit that in some 10 years  
of consideration of individual  
cases, the walls had been somewhat

which was eliminated by him to assist - he  
was allowed to view for pension purposes / In  
this connection I would note that the military has  
promised to the First Grade of the Indian Army  
raised an increment of Rs. 10/- per month from 1st April  
new pension. His salary prior to the revision of 1920 would have been:-

Salary.....	Rs. 1000
Non-pensional Allowance	30/-
House Allowance	10/-
Non-pensional Allowance	10/-

5. Mr. Virjee's non-pensional allowance is Rs. 100/- per month. His pensionable salary only is Rs. 800/- per month. It is difficult to account for pensionable salary as the pensionable salary contained in para 4 above is Rs. 100/- per month. On despatch of the 30th of March 1921, in view of which the limitation of pensionable salary per pensioner is Rs. 100/- per month, his pensionable salary could not be increased to Rs. 100/- per month for pension purposes.

6. Mr. Virjee is a married Non-European married 10 years, no children. His pensionable salary is Rs. 45/- per month in respect of which his house allowance of Rs. 78/- per month will be computed. The initial salary of Rs. 300/- per month will be the initial salary of the First Grade prior to the revision of salaries. Prior to the revision of salaries, his salary was not pensionable. It is therefore considered that his non-pensionable salary will be Rs. 100/- per month in respect of which his pensionable salary will be Rs. 78/- per month.

7. Mr. Virjee has been invalided i.e. on a vice of Medical board laid on him in March last. His pension

(4) That there are precedents for analogy as well as Military service in similar circumstances i.e. when continuous with pensionable service and in substantially the same class of appointment (clerical), being considered pensionable. The cases of the late Mr. J. Pereira, Audit. Mr. M.M. Gracias, Police, Mr. K.W. Native, Post and Telegraphs, Messrs Chafrey de Souza, Mr. Gittel, J. Furtado and other Audit clerks transferred from the Military would appear to be analogous.

(5) Further that Your Grace's petitioner has not received any increase in his emoluments since 1920 and is drawing a non-pensionable allowance of Shgs. 34/- in respect of war bonus and house allowance, which he humbly says may be absorbed in his pensionable salary, in view of the fact that in accordance with the revised terms of service approved by Lord Milner and embodied in the Secretariat Circular No. 48 of 1920 increments may be given to 1st Grade clerks for long and meritorious services, to which Your Grace's petitioner respectfully ventures to hope, he can reasonably lay a claim by his 23 years' faithful and loyal service to the Government.

(6) In this connection Your Grace's petitioner would venture to mention his consideration that there are others in the service of the Uganda Protectorate who although junior to him both in service and grade draw a far much higher pensionable salary.

(7) Furthermore, Your Grace's petitioner feels that the present state of his health incapacitates him from further active pursuits has been in a large measure caused and is the consequence of his extremely hard work over a long time necessitated by the shortage of staff at Department.

(8) In conclusion Your Grace's petitioner earnestly hopes and says that the above facts will dispose Your Grace to a favorable and sympathetic consideration of his application for which favour he will remain ever grateful.
