Land Settlement Scheme

1919

1st July

See previous Paper.

Criticises very adversely. Considers capital quoted very insufficient

Mr. Bottomley, Sir ~~John~~ Walter Wood Stoney

I think the reply can be that the scheme was drawn up by the local authorities with full regard to the conditions of the country, and that the fact that it has ~~not~~ ~~is~~ reported to have been ~~so~~ successful should show that the terms have been considered satisfactory by those with first-hand local knowledge; and point out that the capital stated as necessary, which was fixed by the Gov. after full ~~consideration~~ ~~of~~ the report of the Land Commission, is only given as a ~~gross~~ minimum.

See subsequent Paper.

Secretary

East Africa Land Settlement Scheme

I have to thank you for your last  
 ment Scheme which I wish for per-  
 suading several enquiries from  
 ics, I am sorry you do not send  
 showing the position of the lands  
 ble though the details you mention  
 too good, neither have they been proved  
 tal required to develop stated in your  
 this is insufficient and I do not think  
 who know the conditions or has any  
 experience of the country could honestly  
 anyone to take up these lands if they have  
 a living out of them. The idea of

Sitting women on back blocks in  
Native Country is too absurd and  
asking for Native troubles - I hope no  
may be taken in by this scheme except  
who can afford to lose or wait. Can  
will doubtless be signed releasing the  
of responsibility in spite of your warning  
by those who cannot know the Condit  
If you can show me any possible trace  
of success for the Suttles with the Capital  
I shall be glad to be  
I shall be glad to be  
asked for information I shall want  
to hear it all, its ups and downs and  
with limited means deserves a better fate

Yours faithfully

L. P. Hogan
