I can find no note of detection either
at ~~London~~ but there is the one shown
at Dublin (see ^{RK} 2/1971 & 4. 7 Cir. of 1 Dec '19
herewith)

D 211

We do not appear to have had
any request for detective training at
Scotland Yard, though one of our police
Officers (for whom I refer to Court, under
~~the name of~~ in the report with
the R.D.C. (see 2/1971))

2/1971

Mr. Standring

One of our officers, Capt. Richards, was
temporarily employed at Scotland Yard
during his last leave, but merely for
their convenience, not for the purpose
to which we need to organize a Special
Constabulary. I mention this so that
he should be brought up in this con-
nection. We have never (see 2/1971
now) sent any officers at Scotland
Yard for our instruction in Dublin.
Dublin also has been used.

My Lord,

I have the honour to enquire whether arrangements could be made for Officers, Inspectors and Constables of the East Africa Police to undergo a course of training in detective work under the Criminal Investigation Department of the Metropolitan Police at New Scotland Yard.

2. In the event of the principle being approved, Your Lordship would be notified of the names of those officers selected for the course when they were about to proceed on leave.

I have the honour to be,
Your Lordship's
humble, obedient servant,

ACTING GOVERNOR.

LONDON, S. W.

STATEMENT OF OBJECTS AND REASONS. 500

The purpose of the Bill intitled The Discharged Soldiers Settlement (Amendment) Ordinance, 1920, is to extend the time allowed under section 1 of the Discharged Soldiers Settlement Ordinance, 1919, in which an approved applicant for a farm of the B class may present himself in person before the Land Officer in Nairobi.

The Amending Bill was passed in accordance with the directions contained in Despatch East Africa Protectorate No. 297 of 27th September, 1919.

538

My Lord,

I have the honour to acknowledge the receipt of your despatch No. 414 of the 11th inst. in relation to the various transactions of the various officers of the Imperial Forces who are residing in East Africa and to the fact that the local authorities will render assistance to the various cases within the limits of their jurisdiction. I am glad to hear that the various cases of maintenance and out-pension have been explained to the various officers of Pensionable Forces. Copies of the above despatch and its enclosures have been forwarded to the Principal Medical Officer and the Military Pensions Officer, who in consultation have prepared the accompanying memorandum, and would be glad to receive the guidance of the Ministry on the various points raised therein. It is possible that many of the inquiries are

treated

MEMORANDUM

VISCOUNT MILLER, P.C., G.C.B., G.C.M.G., &c., &c.,

SECRETARY OF STATE FOR THE COLONIES,

DOWNING STREET,

LONDON, E. W.

Memorandum
11 May 1920.

... treated in the general instructions, which were asked for in the ninth paragraph of my despatch No.361 of the 14th April, but as they differ materially from those previously stated, I have thought it advisable to forward the same for consideration by Your Lordship and, also if necessary, by the Ministry of Pensions.

3. There are two main points, however, on which further explanation is required in this connexion:-

(a) The scope of the term "Imperial Forces."

(b) Treatment of Non-Commissioned Officers and lower ranks.

With regard to (a) it is assumed that Imperial Forces comprise every arm, naval, military or air which served in any part of the world under British command and include Dominion or Colonial troops. (b) This Administration has agreed to charge a flat rate of Rs.7/- per diem for the maintenance of any European soldier or ex-soldier whether of commissioned or non-commissioned ranks and I shall be glad to learn whether the Ministry of Pensions is willing to accept similar privileges and terms for Non-Commissioned Officers and men on their books or whether special conditions for maintenance, fees and allowances have been formulated by that Department in respect of these ranks and their dependants, whilst

Pensioners

pensioners are undergoing medical or institutional treatment. The revised scales in the meantime will only be charged for the grades mentioned in the letter from the Director General of Medical Services, Ministry of Pensions to the Under Secretary of State, Colonial Office, No.M.S.3/Gen/11 (M.S.2) of the 28th November last.

Md
6/20/28

4. Medical Officers in the Protectorate service are now allowed to receive fees in respect of attendance at Pensioners' Medical Boards and I presume that they, equally with private practitioners in this country, should be granted remuneration at the prescribed rates for treating or operating on ex-members of the Imperial Forces, including the local Forces, in connexion with disabilities contracted on, or aggravated by, active service, as such work obviously is outside the scope of their normal duties. I have authorized this concession provisionally, subject to Your Lordship's covering sanction.

5. I wish to take this opportunity of bringing to Your Lordship's notice my suggestions for medical arrangements in connexion with military pensions work. The existing procedure is for the Principal Medical Officer, Nairobi, as the responsible head of the Medical Service in this Protectorate, to convene Medical Boards and to interview pensioners, who are domiciled in British East Africa, Uganda and Tanganyika Territory. It would appear desirable to continue this centralized organization

organization on a definite basis and to establish a single supervisory authority on medical questions as affecting pensions for ex-members of all British Forces. It is intended that Medical Boards in adjoining Administrations should

be nominated by the respective Principal Medical

Officers, and that the proceedings to

be conducted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

It is further intended that the Medical Boards should

be constituted in accordance with the provisions of the

Medical Board (Pensions) Regulations, 1945.

as that Department has no knowledge of such cases as have arisen amongst ex-members of [redacted] units still resident [redacted]

to be,

Your Lordship's

humble obedient servant,

Re: Medical Treatment of ex-
the Imperial Forces res...

Sir,

We have the honour to refer to Colonial Office
Circular No. 111, dated 24th January 1920 and to enquire
whether or no the fact of no institution being available, the
expenses for medical treatment during the period of treatment
may be certified for payment when certified by a
Principal Medical Officer as being reasonable. It is
proposed that in the country treatment at home and private
expenses may be included. The same applies to travelling
expenses in connection with the patient's having to attend
a medical board, or if it necessary to report to the
medical authorities for further treatment. In accordance
with these proposals I think that you will agree that
considerable in the... should be...
Military Postings Office... this...
allowed to authorize and pay...
... it is possible...
... instructions already received... of
... owing to the conditions prevailing in the
country... sometimes be more economical and more
economical for the... to pay...
for the patient... if disabled...
medical officer. Reasonable travelling expenses could be
considered as those incurred by the patient seeking advice
or those incurred by a medical officer proceeding to examine
a patient in his vicinity or district, or on a round of
visits.

No. H.P.1/59

The Hon. Ag. Chief Secretary,
The Secretariat,
Nairobi.

573

Re: Medical Treatment of ex-officers and nurses of
the Imperial Forces resident in East Africa.

Sir,

We have the honour to refer to Colonial Office
Circular No. 111 of 1919, dated 20th January 1920 and to enquire
whether or not the cost of no institution being available, the
expenses for medical accommodation during the period of treatment
only to be paid for payment when certified by a
Principal Medical Officer as being reasonable. It is
proposed that in such a country treatment at home is impracticable
and expenses may be incurred. The same applies to the pensioners having to
expenses in connection with the pensioners having to
a medical board, or if it necessary to report to the
Medical authorities for further treatment. In order to
avoid these expenses I think that you will agree that
reasonable expenses should be left to the pensioners.
Military Pensions of 1918. It is proposed that the
allowance to authorize expenditure on such cases.
It is possible to get some idea of the
general conditions already received in the vicinity of
Nairobi, owing to the conditions prevailing in this
country. It may sometimes be more economical and more
economical for the patient to be treated at home than
for the patient to be treated in hospital. If disabled by a
medical officer. Reasonable travelling expenses should be
considered as those incurred by the patient seeking advice
or those incurred by a medical officer proceeding to examine
a patient in his vicinity or district, or on a round of
visits.

2. In paragraph 7 of the despatch the same question is involved which refers to the doctor visiting the patient instead of the patient visiting the doctor, and it is presumed that all such expenditure may be incurred on behalf of other ranks, other than officers, nurses and warrant officers of the Royal Navy.

3. We would also bring before your notice the fact that in many cases addresses quoted by the Ministry of Pensions in regard to pensioners arriving from England are inadequate, and that it has been found difficult to trace their arrival in this country, and it would be of great value if accurate addresses could be ascertained and forwarded to the appropriate offices before the pensioner leaves. Pensioners may be instructed, before their departure, that they should report their arrival, either in person or in writing, to the Military Pensions Officer within seven days of their arrival in whatever part of the United Kingdom happens to be resident.

4. The office Principal Medical Officer is often inundated by pensioners who state that they have no papers for revision by a Medical Board and they bring no papers in connection with their cases. It is considered that it would be desirable if all ex-soldiers who are on the pension list should report their departure to the Civil Service so that, in cases where their pension is subject to revision by a Medical Board in this country, arrangements may be made with the Ministry of Pensions whereby all necessary documents for information of the Medical Board may be forwarded to the Military Pensions Officer prior to the date on which the examination falls due. Members of the Medical Board complain, with some justification, that, in a difficult case, they are without the means of knowing a patient's previous medical history, or how the

533
233
PERMISSION TO COPY
OFFICE USE ONLY

the case has been treated in the past, before giving judgment.

In a tropical country like this, the disability under which a soldier suffers may be so aggravated by residence here that it is possible to conceive that the recommendation of the Medical Board will be emphatic that the only course to pursue is to invalidate him out of the country. The question then arises whether he is to be repatriated at the expense of the State (i.e. cost of his passage home and local travelling expenses.) If the man in indigent circumstances it simply means that in the end he becomes a permanent charge (e.g. a lunatic) or is sent out of the country by the Protectorate Government as a "Distressed British Subject."

We have the honour to be

Sir,

Your obedient servants,

A. D. Payne
