This pamphlet on — and refer to if approved it may be returned for the insertion of illustrations.

~~Mr. Falder~~

(See your slip within)

I do not know who it is proposed should edit or amend this document, possibly Mr. Maxwell & Prof. Simpson (also Col. Bullen) should have an opportunity of making any suggestion, especially as I ascertained that it is to be issued under the auspices of this office & sent to the Colonies? In this connection see papers of the printed minutes of the Sub-Committee (cb 153/14) and the latter part of the Committee's minutes, fastened on the same paper.

The whole project in regard to this pamphlet seems to have been left delightfully vague. Nothing has been settled regarding remuneration & cost of printing, as far as I can see, nothing has been done to obtain the information regarding methods of vaccination & lymph manufacture which were to be compressed into an appendix. I do not know whether this somewhat ponderous volume is anything like the "small informative pamphlet" which Col. Balfour & Prof. Simpson suggested.

I circulate to Col. Balfour & Prof. Simpson for any observations, ack. receipt, & thank to promise a further communication later, & unless they do so, Eastern Dept can furnish information required, send off despatches to the Governor asking for it.

W.S.C.
done

Mr. Balfour & Professor Simpson think the pamphlet is distinct but is rather too good for the use of the ordinary man. It is a valuable work & should be in the hands of every laboratory superintendent. The Committee and the matter of printing it so as to get it on sale as early as possible. Mr. Balfour & Professor Simpson thought it a valuable contribution and you suggest that it as a Parliamentary paper.

From

Col. W.G. King . C.I.F.

I.M.S. (Ret.)

To

The Under Secretary of State,

Colonial Office,

Sir,

MO

With reference to your letter No 46153 of the 19th. Nov.

1918, I have the honour to forward herewith a draft pamphlet,
for favour of such action as you may think fit.

2-- I have to express regret that this matter has not received
earlier attention from me. Subsequent to receipt of your
letter under reference, a sudden bereavement was followed by
necessary regard to private affairs which precluded rapid action.

3-- It will be noticed that in the text certain illustrations
are referred to. In the interest of economy, these have been
suggested by me as little as possible - subject to its being
feasible for the reader to correctly interpret statements made.

In the event of the pamphlet meet-
ing with your approval original illustrations will be forwarded,
and for this purpose, I suggest the copy be returned to me, so
that they be placed in the desired position. In this case
also, I shall be happy to deal with the subject mentioned in

DRAFT

W.S. King, C.F.E., M.S.

I am to acknowledge the receipt of your letter of the 10th of July, enclosing a draft of a pamphlet on the subjects of vaccination, as desired in the letter from the Dept of the 19th of May 1919, and to express to you his thanks for the action which you have taken. The delay which has taken place in acting upon your communication is much regretted.

Downing Street,

10 September, 19.

Dear Professor Simpson,

This is the pamphlet on vaccination which has been drawn up by Colonel King as the result of the discussion at the sub-committee in September. We should be very grateful if you could find time to glance through it and then pass it on to Colonel Hallour to do the same. Perhaps you will let me know what you think of it at the next meeting of the Committee. I have taken action to get

for view on paper put forward

Yours sincerely

I am so to transmit to you the
acc. draft of a pamphlet on the
subject of vaccination which has

been prepared at the his request, by the
Col. W.B. King, C.P.E., I.M.S. (retd.)

2. Col. W.B. King proposes that

this pamphlet should be published,
and that copies of it should be
sent to the Governments of all tropical

Colonies and Protectorates. He would

be glad to hear your observations
as to the feasibility of the

Tropical Disease Bureau publishing
it as a Sanitation Handbook
