Mr Read.

I have corrected some errors & altered some rather curious expressions.

P. 58 runni mails, I suppose is all right as meaning mails carried on foot.

P. 72. at bottom - it is odd that European should drink from streams known to be polluted with disease, but there is nothing to justify our supposing that a "cat" has dropped out.

A few changes are worth reading

Pp. 27, 28. allusion rather hard on the European calculator, but later (I believe) it is shown that it is the local demand which prevents export at present.

Pp. 85 et. seq. hawaii move

Pp. 105-6 parish patrol

P. 113 Magasin settlement (the area is here put at 42,000 & not 52,000 acres).

42,000 & not 52,000 acres. game.

22. I. 13.

I have made some alterations. On looking at the Estimates, I have had to "alter" "Reimbursements by other Govts". The original alteration was due to a misreading of the table which has now been deleted.

Section VIII. Mr. Fiddler should see. Perhaps he will be able to check the correctness of "Ornithodoros moubata".

Concessions Returns.

I am sorry to find that Mr. Batten has note (in minute or 30599) that the returns marked A have to be printed, but the result that not only Concessions granted but also concessions cancelled or pending have been included.

"Cancelled" are on pp. 68, 69 & p. 131

"Pending" are on pp. 70-81 & 101-11.

I am afraid all these will have to come out, the minutes, pp. 82-100 appearing under the heading "Return for half year ended 30 Dec. 12" and

Dr. Meyer is that the correct

This is my De signat

142-130 appearing... Return for half year ended 30 Dec 12

Pages 122 to 129, the Reference to Concessions is useless. I had this column "Reimbursements" the last one "Reimbursements", omitting the word "Reimbursements" since it appears below the line

I omitted to put Mr. Macnaghten's name in the minute paper.

Mr. G. Fiddler

I have now been able to go through the review & have made a few corrections. P. 11 the ~~total~~ total imports is altered to agree with the figure on p. 12, it is correct according to the Blue book - for which I have verified all the specific denominations, & I have therefore altered the figure for "all other sorts".

hand returns. There will do now, but next year we ought to prepare the returns for printing. The columns "granted" & "refused" are unhelpful. (We could say that all concessions were granted totally except where otherwise stated, & give the exceptions by footnote).

This does not compare very well with the N.N. map (a report annexed) which is indicated as a model, but it will serve.

Bottomley

It would suggest that when the Returns for the year ended 30th June, 1914 have been received they should be got into type without waiting for the Report. This would give the Department time to edit the Returns and would save time when the Report was received. This practice was followed on at least one previous occasion but of late it has been the practice to print the returns and the Report together.
