Enclosure of 1912

Mr. Bottomley,

This Ordinance has been modelled on the lines of the Uganda Prisons Ordinance of 1910

[Before sanction was given to the passing of the latter it was sent to the Home Office for observation and certain recommendations made by that Department were subsequently incorporated in the ordinance.]

The first thing which one notices in the new ordinance is that provision is

At the head of the Prisons administration
comes the Commissioner who is to be
appointed by the Governor. The title seems
an important one as comparison with

Commissioners may result. There seems
no reason why the present title of
Inspector General of Prisons should not

As in the definition in § 2 "Commissioner"
includes an Assistant Commissioner it
seems reasonable in § 5 to record that
an Asst. Commissioner may exercise
any of the powers of the Commissioner or.

medical officer - The phrase "medical Subordinate assistant" might be defined or explained.

§ 4. The reason for the classification of the prisons according to class in three grades is not apparent, nor is it clear in what respect prisons of the various grades differ from one another. Prisons of the third class, however, appear to enjoy immunity from inconvenient visits of visiting Trustees (vide § 101).

§ 6 This section contemplates the creation of posts by the Governor. This seems to be at variance with Colonial Regulation 247 in so far as it empowers the Governor to increase the paid establishment or alter the appropriation of the established salaries of a dept.

ordinance who are suspected to be dangerous lunatics
is, under this ordinance, extremely informal.

It is quite common under § 60 for ^{one} District
Officer to sign a certificate to have a

prisoner, adjudged insane, and when it is
remembered that by definition "District Officer"
includes in certain cases a District
Subordinate Assistant (probably a surgeon
or apothecary) it would seem that the
section does not provide sufficient safeguards!

There is no section corresponding to this in the
Lupatda Prison Ordinance, and there does
not appear to be any reason why
persons suspected of being insane should not
be dealt with under the ordinary lunacy
law of the Protectorate, even if they are prisoners.

§ 101 speaks of "a prison to which no visiting
prisoner is appointed by the Governor" ~~this sentence~~
is inconsistent with section 100a

§ 101. According to section 101 this class prison
and prison to which no visiting prisoner
are appointed by the Governor will be fairly

Some provision should be made for regular visits of all prisons by visitors duly appointed visitors.

X §§ 128 and 129 might be combined. Standing apart as they do there will always be a certain amount of argument as to what constitutes a 'more serious' offence.

According to these sections a Deputy Supdt. can permit by dismissal, subject to confirmation by Commissioner. § 13 should be amended accordingly.

THE EAST AFRICA PRISONS ORDINANCE, 1912.

LEGAL REPORT.

The re-organisation of the Prison Service necessitates considerable alterations in the existing regulations governing that service.

This Ordinance repeals the Prisons Regulations 1902 and makes provision for the establishment of a prison service on the lines which have been approved.

The Ordinance is modelled on the Uganda Prison Ordinance, but it has been found to be necessary to make considerable alterations and additions which are, when necessary, explained in the Comparative Table attached.

If the Secretary of State has not as yet approved the gratuities to be paid under Section 52, the Ordinance should be submitted to the Secretary of State for his approval before assent is given to the Ordinance.
