Shooting Regns for German E. Africa.

Sends dft p. Berlin enclosing revised text of Regns Nov. 1908 & Dec. 1911.

Sir G. Fiddes.

Section 10 which reproduces the provisions of Art: VIII of the Regns is important, as it trebles the ~~old~~ former limit of 5 Kg:

1 Kg = 2 1/5 lbs

∴ 15 Kg: = 33 lbs, which is a higher limit than the E.A.P. limit of 30 lbs. This is a big advance in the part of the Germans & ought, inter alia, to prevent the smuggling of undressed ivory from the E.A.P. into German E. africa.

Print - & send copies to E.A.P., Uganda, & N'land 2.7.12.
