Railway Construction in German Colonies

Sends back from Berlin resp. projects recommended by the International Council of the Col. Economic Council for further railway construction in German E. W. Africa

Fr. G. Fickler.

The accompanying note & maps which I have rec<sup>d</sup> from Capt. Coe explain the position. The Germans are pushing ahead, but it appears from other papers that they will have competition in Lake Tanganyika as the Belgians are just constructing a railway to the lake from the Cong side.

Copy to the file of the S.A.P. & depend on giving the add<sup>l</sup> info. contained in Capt. Knorr's note) - + return map. + G. Coast 18/11 to see as to the Tanganyika railway?

The S-R are sending back the maps } alone P.S. - 19
