MARUUI LANDS

Understands Col Owen Thomas has an option to purchase at about f2 an acre 30,000 acres of freehold land north of Takamga. The Maruui possess in all about 52,000 acres.

Dr G. Fiddes

Mr. Waller mentions his to me in conversation and, as it relates to me a most curious matter, I would like to state the facts briefly in writing. If this comes off, it will mean that Col. Owen Thomas will have practically a monopoly of land in the Gold belt North & South of Koutaba.

I would think he ought to approach

as are to the few, saying that an
understanding from the Indians as to the
settlements and as to how often he
can make any suggestion to prevent the
large areas of land falling at the hands
of one individual. What we want is
a definite forbidding any action
concerning the parcels of land without
his to make step defining of the
land without the concurrence of the
flock, but having regard to the fact
about nature of the tenure in which the land
~~but the land is held in the flock~~
~~is held~~
I do not know whether the flock is
likely to pass such an alter-

I gather that the Mayors
are Mikommeesay & that
this land lies within the jurisdiction
of 3rd or 4th dominions, also
that they have had a declaration
of title from the Land Commissioner

(and) if they are in the
Court - if they are in the
territory we can stop the
process under Reg. #197 but
I suppose we must assume that
this point is against us, &
also that the flock has been
entirely converted by the Court
so that there can be no
question of the validity of
the Bishop's claim ~~any longer~~
This being so

very important information we
have on the subject. The only
thing we can do I think is
to telegraph to Mr. Barber
proposing, stating the substance
of Mr. Hobson's communication

& adding that we consider
it of the utmost importance
to prevent the transfer to
Europeans of ~~the~~^{coast} lands with
areas of native ^{as well} land &
& that he should take any
steps he considers advisable
for this purpose.

As to what steps are possible the
only thing as far as I can
see - if the facts stated
above are right is to have
an ordinance extending ^{as far as}
to the coast, or forbidding alien
of native lands ~~in~~ ^{when} ~~when~~

to the Govt. with regard to
actions already existing this
could of course be confirmation
of what I suggest ^{but} cannot
be ^{done} to determine
whether he considers such a
course possible & if so what
method should be adopted for
carrying it out.
