The appointment of a Laboratory, Vet^y Asst. is giving a good deal of trouble. The salary is 9000, too low for his Vet. Inst. men. But we cannot even well raise the salary for this new app't without raising it for Mr. Cairns (File 4040) and Mr. Schultz (File 4000) the other two Vet^y Laboratory Assts in E.A.P. Mr. Cairns was recommended by Mr. Storer while on leave, and was obtained from the ~~South~~ Pathological Lab^y of the R. Hosp. for Sick Children, and Mr. Schultz from Dr. Theiler's Lab^y in S. Africa.

It might be worth while for the Serv. and to expect that we are to do justly in securing a suitable candidate. It is not that no one at the Res. Inst. wishes to apply and suggest that they might try Dr. Theiler's Lab^y as in case of Schultz
