SHIPMENT OF PEDIGREE STOCK

Notice that a contract has been made between the
S.A. Govt and the U.C. Line by which pedigree stock is
shipped free of freight to U.A. ports, including
Lourenco Marques. Suggests Gov should be asked to
extend arrangement to E.A. Alternately enquires if
C.O. would be prepared to assist.

Mr B. Stomley has read

The exact nature of the agreement between
the S.A. Govt and the U.C. Line is not stated. It
may only apply to the shipping of Government stock
and not the stock of private owners.

It is very doubtful whether we could persuade
the U.C. Co to make any such concession to us
(although we are just conceding them the point
as to non-termination of loading ports in the
United Kingdom), and in any case, I suppose,
such an agreement could in no case only apply
to the case of pedigree stock shipped for Government
purposes e.g. on the Government farms in C. A. P.

Mr Holzappel has already communicated with the
U.C. Co on the subject, and they have told him
that they are not in a position to do
out his suggestion.

consider it desirable to pass the W.C.C. to
make this omission, and add that in any
case he is not in a position to ask the C.C. to
take pedigree stock free of freight to E.A., unless
for Govt. purposes. Just after the last para of
Mr. S's letter says that the proposal will be
communicated to the Gov. P.A.P. for his consent,
but that the Govt. can hold out little prospect
of the proposal being adopted.

As we give the Company an authority but

for free freight on any class of cargo. If we could
get any concession I do not think it would be
necessary to limit it to just ~~the~~ imports of pedigree
stock.

assume that the phrase in the S.A. Contract

It is not for us to ask for favour

By the way of course, but the

The Assistant Secretary of State
for the Colonies,
Whitehall, S.W.

Sir,

It is my intention to send into the Protectorate of British East Africa, 10 head of Pedigree stock. I notice from the regulations in reference to South Africa that a contract has been made between the South African Government and the Union Castle Line, by which Pedigree stock is shipped free of freight to South African ports, inclusive of Lourenco Marques.

I approached the Union Castle Line to see if similar facilities could be offered by them for sending Pedigree stock to British East Africa, but I am advised that they are not in a position to do this. Might I suggest in view of the urgent need there is in British East Africa to improve the stock of the country that an earnest endeavour be made to induce the Union Castle Line to also extend this privilege to British East Africa?

Alternately, might I enquire if the Colonial office would be prepared to assist breeders in the way of freight who intend to send pedigree stock to British East Africa?
