REPORT OF AGRICULTURAL DEPARTMENT L-12-13

1914

1200

1200 copies of this report are required.

To A. - Copy above tel sent - 25 April 1914

Mr. W. H. R. Read

Mr. Read asked me to go through this report to see whether it is fit for printing in its present form.

I am sorry that can be objected to. The references to diseases to of the Masai Cattle on the move on pp. 12-16-36 of Mr. Sturdy's report, and in the reports of Capt Newson and Mr. Kennedy, are interesting, and show that numerous as to the ~~loss of the~~ damage caused to the Masai Cattle by the move are without foundation. In particular, no single case of ~~trypanosomiasis~~ has been proved.

I send to CA and ask them to arrange for the printing of 1200 copies and to send us 50 the remainder to the Press (see note attached to 6237) [When we have the printed copies we can consider the Report in detail]

X. We had better have 1250 if 700 is to be printed?

I did not have a proof sent to us last year & therefore we need not now. 60/28/14

CA have sent over these pages from the Report, showing that page 1 of Dr Powell's report on the Sisal Hemp Industry is missing. I think it must have been left out when the volume was bound in the Press. The pages were too tightly bound to fall out.

We can only telegraph to Gov. P. A. P.

Your despatch of 26 Jan No. 81 Page 1 of

Powell's report on sisal industry, missing from Agricultural Report. Please send as soon as possible as printing of report must be delayed.

[The printers with I suppose be able to get on with the printing of the rest of the volume, but binding will have to be delayed unless the missing page is pasted in all the copies subsequently. I think we might suggest to CA that the printers should proceed and that the missing page should be pasted in. This might be done semi-officially.]
