to carrying out a R.C. survey
near the survey. We employed 12

officers in a previous occasion (see
S. 10/10) & it is probable that
5202
the new taken from outside would

be more important than one of the
last one & would adopt the

the

5202
- opportunity to take meeting on
position due to the offer
before he starts out

Some preliminary

cost at 450000, but the
guess at 200 miles & 1000000

We cannot afford this, and I think
the only thing to do is to go on with
the detailed survey (which must be
expensive here) and to drop the
restoration until its completion is
3 years time ago. &

I had better tell you according
 He may repeat this first idea of
 private survey & construction - by Perkins.
 But I don't think but this sh^d be
 encouraged.

The question of ~~the~~ main line
 may suffer, but there is no help for it.

I would not send out a R. E. for
 anything else - but had better do it
 and estimate that you are \$50000 deep 39 1/2

I will have to start (that is \$50000) ^{of land}
 prepared at least 2 of the main line
 & the other ~~to~~ ~~be~~ ~~done~~ ~~in~~ ~~the~~ ~~same~~ ~~way~~ ~~as~~ ~~the~~ ~~main~~ ~~line~~
